STOP PRESS!

TOMB RAIDER IV

THE LAST REVELATION

Yes, here they are... the cheats that everyone's been waiting for. And thankfully they're easier to enter than on previous *Tomb Raider* games.

LEVEL SKIP

Face north within 1 degree (hint: to do this easily, climb north to a ledge – or climb south and roll over), then go to the inventory and highlight Load. Press L1 + L2 + R1 + R2 + Δ . Exit from the inventory to skip a level.

ALL WEAPONS

Face north within 1 degree, then go to the inventory and highlight the Small Medipack. Press L1 + L2 + R1 + R2 + Δ . Exit from the inventory, then reselect it to find all the weapons and unlimited ammo. Note: This doesn't work on the first two training levels. Also, it doesn't give you the Laser Sight (you need to get it from Alexandria).

ALL ITEMS

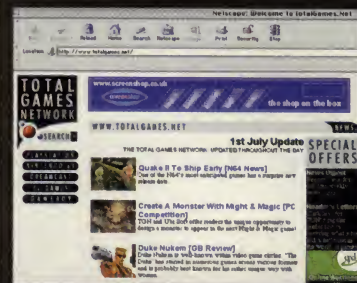

Face north within 1 degree, then go to the inventory and highlight the Large Medipack. Press L1 + L2 + R1 + R2 + Δ . Exit from the inventory, then reselect it to find all the items (keys and so on) for the current level.

ALUNDRA

Q...from James Gilliam, Welwyn Garden City

How do you get the Legend Sword?

A After fleeing the crumbling Murgg base, on the way back to the village, check out the statue to the south. Remove the large boulder in front of the statue and walk up the path. Examine the statue and collect the Legend Sword. Then continue walking to the village.

BROKEN SWORD

Q...from Aaron Scott, Derry

I am stuck on Syria. Could you explain where to find the toilet brush and how to get Nejo to accept the ball.

A Okay, for the last flippin' time... Look at (press ☐) and talk to Arto - the kebab stall-holder near the steps to the carpet seller. Talk to Nejo about Arto.

Offer Nejo the red ball and select YES when he asks if you mean it. Use the phrase which appears on Arto. Go back and talk to Nejo to get the toilet brush. Go back to the club and give the toilet brush to the club manager.

BROKEN SWORD II

Q...from Jason Read, London

When George stumbles onto the film set, where do you find the Ketch's treasure and how do you get out of the film set?

A Talk to everybody on set: director, cameraman, stuntman, and actors. Next, head over to the table and take a pancake, a bun, and the syrup by left-clicking on them. Now, combine the syrup with the pancake by selecting the syrup icon and left-clicking on the pancake icon. When you've done this, left-click on the bush. Then select the syrup pancake icon and left-click on the stuntman, Bert.

Select the bun icon and left-click on the bush. The hornets within the bush certainly won't like that. So, naturally, pick up another bun and left-click on the bush once again. The hornets will fly out of the bush and chase after Bert's syrup-covered chin. Once the tough (?) stuntman's finished cowering behind the set, the scene blanks out, and returns at the shores of the beach below.

Talk to each character on the beach, although the 'young movie star' has nothing better to say than, "Yeah man!"

Left-click on the handheld camera, then left-click on the director. The director's enthusiasm for George's idea shines through, and George is set to become a movie star.

Once George has rushed into his costume, we see George climbing up the rock face, to the cave where Ketch's treasure has been hidden for all this time; and lo and behold, hidden within the treasure chest lies the Eagle stone.

FINAL FANTASY VII

Q...from Clare Barnett, Gainsborough

In your recent *Final Fantasy VII* book you listed a Summon Materia called Alexander, found at Gaea's Cliff (North Pole). I have looked and looked but cannot find it anywhere. Please help me or I will turn insane!

A Once you've touched the water at the Hot Springs, go to the snow woman's cave (to the east of the windy area) and she'll attack. Defeat her to get the Alexander Materia.

MOUTHY MARK SAYS

Thought you'd got rid of me, eh? Until I can get back onto Hard Copy I've managed to infiltrate the Q&A section. Let's have a look at some of your stupid questions then...

Q I have been looking all over for cheats for *South Park*, but I can't find any anywhere.

A Oi! This isn't one of those dodgy Q&A sections where they just print questions asking for cheats which are already printed in the same magazine - hmm, how convenient. If you want cheats, take a look in the Databurst section.

Q I am writing to ask about *Speed Freaks*. On the track Silver City, there is a piece of silver on the track. How do you get past it?

A Simple. You shell out for the proper game instead of playing some dodgy pirate copy of the preproduction version which featured this bug!

Q Could you send me *Croc 2*?

A Yes I could... if I wanted to.

Q Please tell me some cheats or secrets for *WWF Attitude*. Do you have to go through Career mode to access them (I hope the answer is 'no')?

A The answer is yes - heh heh!

Q&A

LITTLE BIG ADVENTURE

Q...from Duncan McCullie, Leigh-on-Sea

I am in the final building and Dr Funrock keeps hitting my girlfriend. How do I open the door?

A We're not sure exactly what you mean, Duncan, so here's the solution to the final scene...

Funrock will offer you a deal, then try to kill you. Fight him with your sword, so he falls off the edge. Go over and talk to Zoë, then blow Gawley's Horn to open the seal and drop down. Then use the grating to go further down and end up in a cave. Just when you think you're home and dry, Funrock drops in again for the final showdown. The easiest way to deal with him is to attack him against

TOMB RAIDER III

Q...from Daniel Cartwright, Huddersfield

In issue #40's Q&A you printed a solution to get the sixth secret in Lud's Gate. I have tried for hours, but every time I drop off the ledge, the diver appears and closes the door. I have done everything you said, I've killed the guard in the dark tunnel, then I dropped into the water and swam round to the left where the door is, but it remains closed. This is VERY frustrating. Is it me that's doing it wrong or have you printed it wrong?

A Well it worked for us! We can only assume that you must have already alerted the guard either beforehand or in the process – in which case he'll shout "Oi!" and the diver will jump in and close the door. Has anyone else had the same problem?

1. As you enter the large pool room, it's vital to avoid being spotted by the guard, so stay underwater.

2. Swim straight ahead to the open area with the wooden floor. You should be able to surface in the far right corner.

3. Dive down and enter the left of the two small tunnels for Secret 5 (ammo for Shotgun and Desert Eagle).

4. Exit and go down the other tunnel to find a lever just round to the right: pull it, then exit to surface.

5. Now swim underwater back towards the entrance tunnel and head along the corridor to the right of it.

6. Surface and climb out onto the right ledge. Climb up onto the ledge straight ahead and crawl round it to the right.

7. Still crawling, turn round at the end and lower yourself into the water hole with the Save Crystal.

8. Turn around and climb out, then crawl round to the left, to the grey rock path where you can stand up.

9. Follow the grey rock path round to the right. Jump to the end of it and climb up to the left.

10. Follow the passage around until you encounter another green guard – shoot him dead.

11. Don't worry about the alarm going off. Just drop onto the slope to slide into the water.

12. Killing/avoiding the diver, swim left then right into the Secret 6 chamber for the UPU and goodies.

DIABLO

Q...from Jay, Peterborough

I've killed everything in the first 15 levels of Diablo and completed all the quests, but am unable to find a way to Level 16 and meet Diablo.

A After returning from your fight with Lazarus in Level 15, you'll notice that the pentagram is now glowing with unholy vigour. Cast a town portal if you have one and buy a load of mana and health so that you have as much as possible, then return to the catacombs. Step into the pentagram to get to the final confrontation with Diablo.

RESIDENT EVIL 2

A...from Steven Gale, Bridport, Dorset
I've completed Leon's first scenario in under 2.5 hours and got a B ranking on Normal level, but didn't get the Rocket Launcher in Claire's second mission. Why not? I also saved after completing Leon's first scenario.

If possible, can you send a letter back because I never usually have enough money to buy your magazine to find out the answer.

No we can't, you cheeky monkey! If you're short, maybe you could earn some money as an extra on *Harbour Lights*? Anyway, there seems to be some debate over what rank you need to unlock the special weapons – you may actually need an A (as we got, naturally). If anyone else can confirm this, please write in and tell us.

RESIDENT EVIL 2

Q...from Donald MacDougall, North Uist Can you please tell me how to get the Bishop Plug? I have looked in every room. I am so desperate to get it. If it's any help, I'm on Leon's first mission. I have the other plugs and it's the sewer entrance I need to open.

A You need to go to the library. Climb the stairs to the side as you enter and then walk around the upper level. Ignore the door that leads off for now and proceed around to the other side. As you near the end, the floor gives way and you'll fall back down to the hidden area in the main library area. Walk forward and push the switch: this will move the first book shelf out of the way, thus allowing you back out. Now walk over to the first two book shelves nearest the door you entered and push the buttons on each – choosing to move them right each time. This will reveal the Bishop Plug under the painting in the hidden area you have just come from. So go and fetch it before you leave. There is also a red herb to pick up next to the other door in the main library area. Leave the library via this other door.

TOP TEN

Every month we answer the top ten **most-asked** questions from readers.

MOST WANTED

1. DINO CRISIS

Why don't some of the numerical codes in your cover-mounted book work? I have the UK version of the game.

Some of the codes are different on the Japanese and English (including US) versions. Here's a guide to the altered codes (all the others are the same).

Japanese	English
0375	0426
7687	8159
47812	57036
46907	58104
5037	7248
78814	31415

2. SOUL REAVER

Your #39 guide said that in the Bell Tower, you should use the Soul Reaver projectile attack to shoot off the five blocks stacked on top of each other. But this doesn't work - how can I separate the blocks?

We apologise for the mistake. Instead you need to push the stack over to the low ledge, then climb onto the latter and push the blocks off repeatedly until you have separated them. You can then put the blocks into the right holes to open the second switch in the Organ Room.

3. SILENT HILL

In your issue #38 walk-thru, point 77, it says to enter the back garden through this gate, proceeding into the house. Well I have tried this, but the door was locked. How do you open it?

You need the K Gordon Key from the Boiler Room, after defeating the Lizard. Points 71-74 should have read: 71. After a few shots the beast will die and you'll be back in the Boiler Room. 72. Pick up the K Gordon Key, then proceed up to the 1st floor.

73. When you reach the 1st floor there will be a short scene. 74. Now head towards the lobby and exit the Elementary School.

4. SOUL REAVER
At the end of the Bell Tower, when you step on the pressure plate to open the door by the first bell, I run for it but it always closes before I can get through. How can I make it in time?

There is a simple trick to this: once you've stepped on the pressure plate, shift to the Spectral plane to freeze time! You can then easily get through the door before it shuts.

5. METAL GEAR SOLID

Are there any cheats to help me complete the game? How do I survive Ocsiot's torture session and is it essential for completing the game?

No, there are NO cheats - only codes for Action Replay and Fire Explorer cartridges. To avoid submitting to the torture, you simply have to hammer the ● button rapidly until the blue bar reaches zero (or find a turbo-fire joystick that works). Although you can submit and still complete the game, you'll get a different ending - and be awarded the Stealth Suit instead of the Bandana.

6. FINAL FANTASY VII
How do I defeat the Emerald and Ruby Weapons?

To do this, you need the Final Attack Materia. To get this, go to the Battle Square and get 64,000 points so you get the eight harder battles. Complete these and you get a new set of gifts, including the Final Attack Materia.

7. BROKEN SWORD

How do I get past the goat in the castle?

A. Everyone gets stuck on this. Approach the goat to the right of the trough (by left-clicking on the ladder). As soon as the goat knocks you over, click on the ploughshare on the far left. When the goat is trapped, go to the ladder and enter the excavation.

8. FINAL FANTASY VII
How do you get the Guidebook, Desert Rose, and Earth Harp for the Kaim Traveller?

The Guidebook is in the tunnel leading to the sub pens, below the Underwater Reactor. To get it you have to encounter a creature called the Ghost Ship. Knock off most of his energy, then finish him off with the Morph Materia to turn him into the Traveller. Take it to the Traveller to get the Underwater Materia. The latter is needed to eliminate the 20 second timer when fighting the underwater Emerald Weapon: defeat it to get the Earth Harp. Give this to the Traveller in exchange for the three Master Materia (Summon, Magic, and Command). Once you've defeated the Ultimate

Weapon, you can battle the Ruby Weapon near the Gold Saucer. Defeat this to obtain the Desert Rose, then take the latter to the Traveller to exchange for a Gold Chocobo.

9. MEDIEVAL
In the Aylum Grounds, how do I solve Jack's second riddle?

Go back into the maze and head left, then left above the steps. Grab the Silver Shield from the chest and follow the path round to find five sad masks which you have to turn so their laughing sides face the topiary clown. It's not easy, as hitting one will usually affect another: get them all one turn from happy, then quickly hit the top right, bottom left, top left, bottom right, top middle masks to make the clown laugh.

10. TOMBS RAIDER III
Can you tell me how the heck to get past those rolling blades in the Temple Of Pura?

The blades will miss Lara if she stands slightly to the side of any switch. She can thus take her time and flick the two switches on one side, then time a jump over the blades to flick the others.

EIGHT I HATE**Dear POWERSTATION**

I have just bought issue #41 of your mag, and as usual it is very informative. However, there is one thing that I would like to point out to you...

When someone wrote in to tell you that they had sold their Chocobo Lure materia in *FFVII*, you said if they couldn't buy it back, they were on a disastrous boating holiday. The point I would like to make is this: when I went back to the Chocobo ranch, to the place where you first come in and are meant to talk to the Chocobo, there was another Chocobo Lure sitting in the bottom right-hand corner of the screen. As a result, I now have two Chocobo Lures! Is this helpful?

I would like to make one last couple of statements: I do hate *FFVII*, I hate *VIII* even more, and I don't understand what the fuss is about. I don't even know how I know what I know. It's a mystery. Anyway, thanks for listening, hope it was useful. Keep up the good work.

Chris Melvill, Hastings

Yes, it is a mystery why you play a game so much if you hate it!

IN DEFENCE**To POWERSTATION**

I thank you for giving me something to

▲ Billy Gunn's finisher in WWF Attitude.

look forward to at the end of every month, because school is boring. So I spend all my pocket money on buying your mag or a game for which you've done a walk-thru. I know it's cheating, but it is addictive. Thank you for the moves and special people of the *WWF Attitude* game, otherwise I would have thought it was pants.

I used to buy another mag, but it was dearer and they didn't give any cheats, so I can see why you have the right to boast. Don't listen to what others say. If they were true fans of the mag, they would stand in line and shout, "POWERSTATION is the greatest mag walking on God's green earth!"

I would like this to be in the mag please, to show others that if you are a fan, you shouldn't write in pointing out every little mistake. Be proud that the POWERSTATION office is not full of little geeks who have to get everything right.

Nick McGrane, Liverpool

Thanks for your support, Nick, although we always do our best not to make mistakes!

DON'T MOAN**Dear POWERSTATION**

Your mag is the best ever! Down to business... I want to complain about people who write in complaining about

▲ We got the Undertaker's picture wrong.

mistakes in the magazine. Hell! If they liked the mag they wouldn't complain. Every great thing has a fault. So they should stop while they are ahead, not moan for half a page. They must sit looking at every page with wide eyes to spot each mistake. Then they write in to TRY to get a prize. But never do - HA HA! Anyway they shouldn't waste paper!

Thomas Brownlee, Belfast

Too right, Thomas. Now perhaps someone is thinking of complaining

LETTER OF THE MONTH!**HIGH-SCORING MOANERS****Dear POWERSTATION**

I am a very keen PlayStation gamer and I would consider myself a natural player, because I'm quite good at all the games that I own, even the new ones that I try. About three months ago I bought *Gran Turismo* and liked it so much that I would spend hours on it. I got quite good at it and all my friends found it hard to beat my times.

Then something got to me. I bought PowerStation and had a look at the times for all the tracks on the High-Scoring Heroes section. I found them to be unreal. Just to see what would happen, I practised for a whole week with the Nissan Nismo 400R on the Autumn Mini and the best time I got was 28.981 seconds - nowhere near the times these guys claimed to have. I bought another PowerStation and then it hit me: I used my Xplorer to get the best car again, but this time I used a cheat to get a good time. I found it quite easy to achieve any of the times mentioned in your mag and just wondered why you would give prizes to people who cheat. Please have a look into this and tell me if I'm wrong. I'm not a bad loser and if I'm wrong, just ignore this letter and my apologies to all the guys who got those great scores. 'Exdevil', W Yorks

Not a sore loser, eh? Nevertheless, you have a point about not being able to tell if someone has hacked a time or score - not that we believe that any PowerStation reader would ever be so dishonourable! From now on we'll be paying closer attention to the evidence supplied by high-scorers - and insist on a video recording of the actual feat where feasible; ie lap times and beat-'em-up time attacks - obviously we don't expect someone to record a complete three-hour game of *Metal Gear Solid*!

**LOU SORTS IT OUT**

Got an embarrassing personal problem? Then write in to our resident agony aunt, Lou. She'll tell you what to do - or where to go.

BE MINE**Dear Lou**

I'm not writing to you with a problem, just to declare my undying love for you. When I first saw you in the POWERSTATION letters section, my heart skipped a beat. That enigmatic smile, the auburn hair with a little strand dangling on your face... it was love at first sight. Ever since, I've been an avid reader of your agony aunt column. I just love your strict, no-nonsense manner. Yes, you're the girl for me, Lou. Please, just say the word and I'll be yours.

Okay, the word is... NO!

HARD COPY LETTERS

about you complaining about complainers? Well don't!

ANGRY ADAM

Dear POWERSTATION

I recently wrote a letter to you about the *Tony Hawk's* segment featured in the last issue. After buying the newly released copy of POWERSTATION, I was surprised and angry to find that my informative letter was not published in

▲ Adam's *Tony Hawk* comments were ignored.

TOP TIPS

THANKS TO ALL THE READERS WHO SENT IN EXTRA GAME TIPS THEY'VE DISCOVERED...

USELESS CHEAT

This cheat is useless, but you might find it fun. On *Xena: Warrior Princess* level 8, The Labyrinth. Instead of going in to fight the Minotaur, follow the corridor round to the right, collect the health, and then walk through the wall into the computer room. Hit the computer to switch it on, then hit the cans to pour a drink.
Steve, email

EASY MONEY

On the second level of *GTA 2*, when you have to get 3 million points, find the tank in Tabasco. Go to the

the Hard Copy section of your magazine. Why is this? After all, this is the readers' page and I am a reader. Please email me with your answer.

Adam Royal, Sunderland

Oh dear, it must have got lost in the post or something. Either that or it was pants.

AERIAL INTERFERENCE

To POWERSTATION

First I want to say what a great magazine you have. I've just got a new aerial for my PlayStation (the older model) and the aerial plugs into the light gun socket. What am I to do?

Sam Steel, email

What are you on about? I take it you've got a Namco Guncon-style light gun which has a lead that plugs into the Video Out socket. It should have an adaptor to let you also plug in your video/aerial lead. Maybe you should write in again with a diagram.

Morton car crusher or somewhere you know you can easily find. Start to crush all vehicles around the area. Before the SWAT team comes, find a policeman and get arrested. This means that you won't get shot and lose a life. When the police let you go, make your way back to where the tank was left and start over again. With this method, you can get half a million to a full million each time.
Ian Fairlamb, Stockton-on-Tees

INSTANT TORTURE

On *Metal Gear Solid*, I have found a way to skip to the torture chamber. First of all, activate the All Items cheats on the Xplorer. Then when you get to the cell (where you have to rescue the Darpa chief), as you come out of the lift, go through the door on Snake's right using the 255 keycard. Once done, you'll skip straight to the torture chamber.

LONG-WINDED TEST

I have worked out a cheat for *Final*

Fantasy VIII. If you want to raise your SeeD level, you have to take a test at the Tortrail. Well, I've found a way to get the answers. What you do is agree to take the test and answer all questions as yes. Then at the end of the test you are given a result. All you have to do is redo the test, but answer Q1 as no, and the rest as yes. At the end of the test, the result will either be ten more or ten less than before. If it's more, then Q1 should be no; if less, then Q1 should be yes. Repeat this for all ten questions to find all the correct answers and get 100%.
David Pendlebury, Torquay

Erm, cheers David. But instead of going through all that palaver, you could always read the complete list of correct answers printed in our Databurst section!

AH-ONE, AH-TWO

I have worked out a cheat for *WWF Attitude*. You can win the tag team gauntlet by getting a double count-

YAP YAP

Dear POWERSTATION

I love all computers. I have a Nintendo, Sega Mega Drive, PC, but best of all a PlayStation! I will be getting a Dreamcast for Christmas. My ultimate dream would be to have a virtual reality console where you can play *Tekken 3* and other excellent games.

I think that I am pretty good at *Tekken 3* and I have got all the cheats without the Xplorer. Pretty good huh? PlayStations are the best with nonstop entertainment, except that is when it is loading a game.

I don't stop yapping, do I? I love cheats. That is mostly why I buy your mag. It kicks ass. I love the *Metal Gear Solid* theme tune. I like the other one as well, where the woman is singing.

Please don't puke on this letter - it isn't that bad!

Adam Owen, Lancs

I've read worse, believe me. No, honestly.

out on the first team, instead of beating all five teams.
Harry Haines, Wootton Bassett, Nr Swindon

Nice one, Harry. I'm sure you're a wrestling legend in Wootton Bassett.

HIGH SCORES

HIGH-SCORING Heroes

SPONSORED BY JOYTECH, PRODUCERS OF OUTSTANDING PLAYSTATION PERIPHERALS

HOW TO...

1. Get a top score or time on any PlayStation game.
2. Use a camera or video to record your score (note that video evidence is required for some games).
3. Ensure all tapes are in the right position and ready to go. We're not wading through three hours of *Party Of Five* (lousy acting, personal space, and Neve 'no charisma' Campbell) just to find two lap times. But we will force ourselves to watch episodes of *Buffy The Vampire Slayer*, if you send them in by mistake.
4. Don't forget to send the photos/video with a piece of paper detailing the scores (and your name and address!) to: High-Scoring Heroes, PowerStation, Paragon House, St Peter's Road, Bournemouth BH1 2JS.
5. Include an SAE (of adequate postage and size!) if you want your photos/video back.

PLAYER OF THE MONTH

A big well done to Paul Ludgate from London. Using supreme stealth skill and lethal ambush techniques, he managed to break our tough *Metal Gear Solid* time. Whilst winning the Official Jordan Grand Prix Racing Wheel V.S.2.0, worth £59.99, won't help you improve this time, it'll probably look good in your front room.

Got an incredible score or time on a PlayStation game? Send us a photo or video (no memory cards) to prove it. Next month we've got some new prizes up for grabs.

SEND IN YOUR MILLENNIUM SCORES

The Millennium has rolled in (technically it's not till next year - Ed) and mankind pushes on towards the next thousand years. This of course means a load more records need to be broken. Send in your best times for *Speed Freaks*, *Crash Team Racing*, *Gran Turismo 2*, and *Formula 1 '99*.

VIDEO EVIDENCE

Due to allegations of cheating (not that we believe that any of our readers would be so unscrupulous), we now require video evidence for certain game records. Please note that this means a recording of the actual high-scoring performance, not just the resulting high scores screen! Records which require such video evidence are indicated in green.

AMAZON ABDOMEN

The fantastic midriff of Renee O'Connor shows us how clear a high-scoring picture should look. Get your photos looking like this and reading your times won't be a problem.

BANDIT OF THE MONTH

Nick McGane from Merseyside scoops our Bandit Of The Month award. He sent us a videotape of *Driver* with no score listings, so we didn't know which level he achieved his records on. Nice one Nick, I guess you want us to send your tape back? Unfortunately you forgot to put postage on the envelope, which got torn in half because it was stapled to the inside of the original package. Sorry mate!

RIDGE RACER TYPE 4

WALK-THRU

▲ Head up the right passage in the Hall Of Demetrius to find the Pharos Knot on the plinth.

LEVEL 18

HALL OF DEMETRIUS

Head around the passage to a large chamber with balconies. Enter the right passage and follow it up. Collect the Pharos Knot from the plinth. Hang-drop down and enter opposite passage. Head up to see some FMV with Von Croy. He escapes, leaving you to face his red Arab guards, so kill them.

There's nothing else to do here except return to the Coastal Ruins. The quickest way back there is to head back up to the ledge where you met Von Croy. You will notice that there are drag marks on the floor below the lantern. Push it towards the bookcase to open the latter. Enter and drop into the hole to return to the Coastal Ruins.

Climb out of the water and collect the Large Medikit and Crossbow ammo on the right. Jump to grab the ladder that is between the four pillars and then climb up. Follow the passage up and drop out of the building to the beach. Enter the water and swim into the tunnel that is located beneath the brown rocks on the right in order to reach the Temple Of Isis (Level 19).

► Kill the three Arab guards after meeting Von Croy, then head back up the passage they come down.

▼ Back where you met Von Croy, push the lantern towards the bookcase to open the latter.

LEVEL 19

PHAROS, TEMPLE OF ISIS

Avoiding the hammerhead shark, swim into the top left window of the temple. Climb out into the short passage and place the Pharos Knot in the slot at the end. Return to the water and swim round to the top right window of the temple. Climb out to another short passage and place the Pharos Pillar in the slot: this opens the large gate at the base of the temple. Swim down there and enter the opened gate to find a pool – swim to the far end and wade up the steps to dry land, then blast that blasted shark. Continue up the steps, blasting a skeleton on your way.

Drop into the small pool between the lion statues. Swim through to an underwater chamber with three doors. Open the one on the right (the others lead to empty chambers) and swim up to surface in a tiny pool. Climb out and enter the room with three staircases, ready to

blast a phoenix flying in from left – when it charges up to fire at you, take cover.

Head up the left staircase and then follow the passage to a large hall with a statue at the end. Climb the block in the far right corner and use your Crowbar to pull out a Black Beetle – quickly roll and drop down to avoid the deadly beetles which pour out. (Don't bother removing the beetle in the far left corner, as it's broken.) Leg it back across the floor and climb onto the block on the left. Climb up the blocks to the top (where the beetles can't climb) and push the panel at the end. Drop back down to the floor and climb up the opposite blocks to push another panel. Now drop down to the floor, run past the beetles, and through the opened hole. Drop to the floor and climb onto the short block, then jump via the two slopes to the far ledge (tip: alternatively, just jump to grab the second slope, climb up, and backflip onto the ledge). Collect the Winding Key from the plinth. Press the panel to reopen the entrance door in the hall above. Drop down, dash past the beetles, and climb the ladder on the pillar. Climb up the ladder through the hole. Exit the hall and head back downstairs, ready to blast the skeleton which materialises by the pool.

TOMB RAIDER IV

GUIDE

Head up the middle staircase to a small room. As you enter the next room (with pyramid), be ready to blast another skeleton. The pyramid here requires four Black Beetles to open, so you'll need two more. Head over to the hole on the left. Drop into it to slide down a slope. Jump off the end and quickly wade to the far side to climb out before the oil is set alight! Use your Crowbar to remove the Black Beetle at the back (don't worry, no deadly beetles this time). The rear of the right pillar contains a Broken Beetle (collect it if you want). Head back round the side of the flaming oil and run-jump-grab to the entrance – the slope has turned into steps, so climb up them.

Head left to the next hole and slide down, jumping from the end into the oil. Wade quickly to climb out the other end. Use the Crowbar to collect a third Black Beetle. Head back around either side and run-jump-grab to the entrance. Climb up the steps but don't bother heading left to the final hole – it only contains a Broken Beetle and more deadly ones! Instead, head back downstairs to the pool. Turn left to head up the third staircase, which leads to Cleopatra's Palaces (Level 20).

2ND VISIT...

As you head downstairs to the pool, watch out for another phoenix up on the right. Shoot it down, then head up the middle staircase, back to the pyramid room. Now use the four Black Beetles to open up each side of the pyramid. Take the Mechanical Scarab from its centre, then combine this with your Winding Key. Head back downstairs to the pool, then left up the stairs to re-enter Cleopatra's Palaces (Level 21, 2nd Visit).

LEVEL 20

CLEOPATRA'S PALACES

Head past the pool to the opposite small doorway, then left up the slope. Turn around and head over to the far end to find a door which you can lever open with the Crowbar. Follow the dark passage to a room with another door. Use the Crowbar to open it, then head through to a ledge with a hole. Save your game before dropping through it to slide down to another oil pool. Climb out at the far end, then turn around. Run-jump diagonally right to land on the ledge. Then turn right to stand-jump to the corner where the Black Beetle is. Prise it out with the Crowbar, then stand-jump back diagonally left to the ledge. Save your game just before the next bit, just in case. Stand-jump towards the entrance – you'll land in the oil, but if you climb out quickly enough, you shouldn't be set alight (if you're lucky). Climb up the steps and hang-drop back into the main chamber. Then exit left, back to Pharos, Temple Of Isis (Level 19, 2nd Visit).

2ND VISIT...

Drop into the fountain pool and swim through the low tunnel on the right. Climb out in the small room and activate the hole switch to lower a section elsewhere (needed for a secret). Swim back to the fountain pool and climb out. Head up the steps in the far right corner and follow the

passage round to see some spike holes in the floor. You can now use your Mechanical Scarab: stand on the beetle tile and let it trundle over the holes, deactivating the spike traps. Go over them and collect your Scarab.

Head up the left sloping passage and run (past blades) into the small room. Grab the Right Gauntlet from the tomb, then blast the skeleton. Run past the blades to exit the room. Head left to the next passage, blasting a skeleton on the right. Head right and use the Scarab to bypass more spike traps. Head right, past blades, into a room. Get Wideshot Shells, Shells, and Large Medikit from the tomb, then blast the skeleton. Exit past blades and head right up the stairs, then down the next stairs. Grab a Small Medikit from tomb, then blast the phoenix which swoops in.

Head left into the passage with the bird drawings to find the floor section you lowered earlier. Drop in and shoot the chest to collect Crossbow ammo. Climb out and blast another skeleton. Jump to pull the lever by the doors to open them (they lead back to start) and raise a block. Climb onto the latter and jump to grab the crevice. Climb round to the right to pull up. Shoot the chest for Crossbow ammo, then head up the sloping passage, past blades, to a room with a small pool. Grab Right Greave from the tomb, then quickly blast another skeleton. Head back past

▲ Lara hops back to avoid a swooping phoenix in Cleopatra's Palaces.

LARA SAYS

My new binoculars come in very handy for examining distant places. They're also great for spotting things in the dark – just press X to illuminate the view.

▼ Near the doors you open with the lever, climb right around the mossy crevice until you can pull up.

WALK-THRU

► When Lara steps on this block, a clone is created. If this is attacked, it decreases Lara's energy.

LARA SAYS

Many creatures (eg scorpions, crocs) can't climb so I can get me onto high ground so I can shoot them from above, without the risk of nasty bites.

LARA SAYS

If I get stung by a scorpion or other poisonous enemy, my energy bar will flash yellow and slowly drain away – and my vision goes a bit wonky. Please use a medikit quickly to stop this happening.

▼ Up on the high ledge, jump to grab each lever and open the door. Make your way back to the top again.

blades, then right to drop down by the crevice again.

Head round past raised block to the bird passage to find an opened door on the left. Enter and shoot the chests for a Large Medikit and Crossbow ammo. Most importantly, swipe the Pharos Knot from the tomb. Exit and head left, past the stairs, to enter the far left passage. Use the Scarab on spikes ahead (not the left ones), then follow it into the secret room. From the tomb, grab Crossbow ammo, Small Medikit, Wideshot Shells, and Shells x3. Return past the spikes and turn left up the steps to find a slot. Insert the Pharos Knot to open the door

Enter and climb onto the first short block to make a Lara clone appear on the opposite one (don't shoot

it), raising the far left block. Climb onto the latter and monkey-climb to the ledge. Climb up through the hole at the back, to reach the top of the monkey-bars ledge. Blast the phoenix (it may also hurt you by attacking your clone), then run-jump over the gap to the next ledge. Head right and climb into the passage. Proceed up to the ledge and blast another phoenix (you may need to return down the passage to the ledge to target it). Run-jump to the high middle ledge and blast the skeleton. Stand-jump to grab the left lever and pull it, dropping to the ledge below (you'll lose some energy, so make sure it's not too low).

Kill another phoenix, then jump to the other ledge and climb up via the passage to the top again. Run-jump to the middle, then left (to either side of the lever block or Lara will hit her head) to enter the opened gate and collect the Hathor Effigy from the hole. Exit and run-jump from either side of the ledge to the middle. Stand-jump to grab and pull the other lever. Return to

the top via the passage. Run-jump to the middle, then right (to either side of the lever block). Enter the opened gate and blast the skeleton, then collect the Ornate Handle from the hole. Combine this with the Hathor Effigy to make the Portal Guardian. Exit the passage and grab a Large Medikit from the left chest. Run-jump back to the middle, then right to the final gate. Place the Portal Guardian on the left staff to open it.

Blast another skeleton and follow the passage to some stairs. Head down and blast the chest for Uzi Clips. Then enter the throne room to watch some FMV. Lara sits on the throne, summoning two bosses, but only one is active so far. Keep moving to avoid his blue firebolts, while blasting away. When he dies, his friend comes to life, so you have to do it all over again. When he's a goner, enter both small rooms to grab the Left Greave and Breast Plate from the tombs – well done, you now have all the armour.

Drop down either floor hole in the throne room and exit to see some FMV. Your friend Jean has been kidnapped by Von Croy. It's time to head for the City Of The Dead (Level 21).

WALK-THRU

▲ Riding the bike, you can run over guards to kill them instantly.

LEVEL 21

CITY OF THE DEAD

Shoot the guard on the left and nick his Revolver. Use it with the Laser Sight to snipe the bloke on the roof. Now get on the bike and ride it around the right corner, running over the guard. Take a right, then a left, avoiding gunfire and grenades, to run over a guard by the barricade. Head right over the slope to crush another guard (get off to collect Shells). Turn around and head right along the alley, then left at the junction. Corner left, then right, and right again to run over the guard. Save your game, then take a long run-up to speed over the deadly chasm: head up the left side of the slope to jump from the highest point, then steer slightly right to land on the lowest edge.

Run over the guard on the other side. Get off the bike and climb up by the stone statue. Jump to grab the right slope, then pull up and hold the jump button to leap via the other slopes to grab the high ledge. Pull up and drop down the other side for Secret Grenade ammo, Large Medikit and Crossbow ammo. Climb back up and hang-drop down. Get back on the bike and ride it straight up the left ramp to clear the chasm again. Continue round

and straight over the junction, past the twin roof guns. Get off to kick open the door behind the far right statues.

Enter to find a dead bloke. Pull him off the hatch. Return to the bike and head back left at the junction. Head round to the left and get off. Climb into the crawl-space on the left and drop down to find a small room. Push the lever to open the hatch by the dead guy. Climb up through the hole, then turn around and climb up through the opened hatch to enter the crawl-space. Proceed along the passage to find another lever. Push it to open a door up above.

Return along the passage and drop back through the hole to the first lever. Climb up to the bike and ride it back round to the left, past the barricade. Taking a run-up, speed up the small steep ramp to land on the right of the ledge with the barricade. Drive through the latter to fall through to a passage. Get off the bike, collect a Small Medikit, then climb into the right passage and take a long drop into the water. Climb out, head along the passage to the room on the right and shoot the bats. Collect the Flares and Wideshot Shells. Slide down the right slope to the passage. Collect the Revolver ammo near the dead bloke on right.

Proceed to the next corner to grab the crevice. Climb right to pull up. Turn around and stand-jump to grab the crawl-space. Pull up and shoot both the candle (releasing mosquitoes) and the swinging canister (releasing blue iceball). Hang-drop down and head right and up the stairs to a pool. Slide down into it and the blue iceball will hit the water, freezing the surface. Swim along the tunnel and up to the surface. Climb out and hang-drop back to the passage.

Head back upstairs and cross the ice to the far side. Push the lever, then cross back over the ice and head downstairs. Head round to the right to find the opened door. Head through and up the passage to a room. Collect the Small Medikit in the far right corner before heading into the right passage. Use the Crowbar to open the door to find a Secret Large Medikit and Uzi Clips. Exit and climb up the block, then the end of the passage to a crawl-space. Hang from the other side and climb right along the crevice to pull up. Turn around and run-jump to grab lever to open the gates that are near the start.

Shoot the grenade-throwing guard as you enter the gates. Collect Small Medikit, then drop down to left to enter a red room

LARA SAYS

Those horrible flame-thrower guns will give me a roasting if I get too close. If I sneak around the back of them, I can destroy them by aiming (with Laser Sight) at the fuel tank. However, the two on the roof in City Of The Dead can be blown up by shooting the barrel near them.

► After your daring bike jump over the chasm, jump up via the slopes to grab this ledge. Drop down the other side for secret pick-ups.

LEVEL 22

CHAMBERS OF TULUN

Ride left down the slope to run over the guard on the right. Get off and shoot the bloke up on the right balcony. Enter the doorway to enter the mosque. Go through the archway and grab the Grenade Gun from the first alcove on the left. Collect a Small Medikit from the far right alcove. Return towards the entrance and climb onto the ledge to the left of it. Turn around and run-jump to grab the top of the archway and pull up. Stand-jump left to grab the crevice. Climb right and pull up; then jump to the ladder. Climb right around the pillar to the next ledge. Enter the passage and climb up. Follow the passage up to the roof.

Push the lever to open a wall. Run-jump to grab the right ledge above the ladder pillar. Jump to grab the rope, then swing over to jump to the opposite ledge with

with lots of stairs. Drop to the bottom to shoot the guard. Head into the right alcove under the stairs to find a crawl-space containing Crossbow ammo. Now climb back out and head back through the gates – it's time to go and get your bike back.

Continue round to the barricade and drop through. Get on the bike and ride it into the end of the passage to burst through the wall! Take it back round through the gates and up all the stairs to the top. Take a run-up from the sandy area to jump from the ledge to the opposite slope and over it. Head up the slope and get off the bike. Enter the far left alcove and shoot the bats, then push the lever to raise a block by the stairs. Back on the bike, speed up the slope to return to the stairs.

Get off the bike and head left to the corner with the raised block. Climb up via it to a passage. Follow it to the end and stand-jump to grab the ledge opposite and pull up. Get the Revolver ammo to the left of the inactive gun. Go through the door you opened earlier. Head through to the roof but don't stray too far forward or those twin roof guns will start firing. Use your binoculars to take a closer look at the red barrel by the helicopter behind the guns. Aiming the Laser-Sighted Revolver from the left side of the roof, shoot the barrel to blow up the helicopter and guns.

Now run-jump from the lower far ledge to grab the opposite ledge. Head to the back of the pit to find a Small Medikit and lever. Push it to open the exit gates. You'll need your bike again, so head back past the pit and run-jump over the right slope to slide safely down to the ground. Climb into the greenish mosque room on the right to claim a Small Medikit and Grenade Gun. Then head back to the entrance gates to the stairs room to get the bike. Ride it to the top and over the sandy area to return down to the main street. Take it round through the exit gates and up the slope to go to the Chambers Of Tulun (Level 22).

WALK-THRU

▲ Climb onto the ledge above the wide passage (leading to the Trenches) and crawl through the passage to find this secret area.

LARA SAYS

Note that I can't drop forwards from a high crawl-space forwards – you need to reverse me up to the edge (hey, no peeking up my shorts!) so I can hang-drop down.

▼ This horned demon is invincible. Steer clear when he hammers the ground or you'll be in trouble.

the opened wall. Watch out for the two large flying beetles as you land in the secret area there – shoot them down. From this Secret area, collect the Large Medikit and Wideshot Shells, then head back to the ledge. Jump left, back to the top of the archway. Retrace your route around to the rope and swing right to the other high ledge. Shoot the guard, then collect the Revolver ammo and Large Medikit. Drop through the hole to slide back down to the bike.

Ride the bike right, corner left, and up the left ramp to clear the chasm. Get off and shoot the beetle. Look up above the wide right passage to see a ledge. Climb onto it to enter the tunnel there. Enter the crawl-space and follow it round to drop into a Secret room that has Flares, Large Medikit, Revolver ammo, and Crossbow ammo in it.

Return through the crawl-space and passage to head back outside. Drop down and follow the raised ground to corner left to find a horned demon with a large sledgehammer – avoid the shockwave when he hammers the ground

or you'll lose a lot of energy. You can't kill him, so leg it back to the mosque and lure him to the far end, then dash back to where he came from. Pull the cog wheel a couple of times, then enter the opened gate by it. Climb up the ladder to a passage leading to Citadel Gate (Level 23).

2ND VISIT...

Ride the souped-up bike round to the edge of the chasm and turn it round. Hold R2 + X to turbo up the stairs ramp and land on the high ledge. Get off and enter the door on the left to shoot a guard. Slide down the slope to the warehouse, then head left down the sloping passage, shooting another guard. Head round to the left and kick open the door. Shoot the

guard on the left (note the flame that is in this room), then head back up the sloping passage.

At the top, head left into the passage and shoot the guard. Collect the torch in the far left corner and take it back and down the sloping passage to the room with the flame. Light the torch and take it up the sloping passage to the warehouse. Head up the far ramp and use the torch on one of the sprinklers to set them off, opening the fire doors.

Drop the torch and enter the nearest door. Push the lever on the left to start the mechanism. Head back to the warehouse and through the far passage to the room where you collected the torch. Climb onto the now higher right crate and run-jump to grab the opposite ledge. Pull up and drop to the other side to find some crates. Blast them all open to find a Small Medikit, Crossbow ammo, and Wideshot Shells. Then use the Laser-Sighted Revolver to shoot the padlock on the gate. Collect the Roof Key from the hole behind it.

Now head back to the warehouse and up the left ramp and through the door. Head right, then left to exit to the bike. Ride it over the slope to the ground, then right and into the wide passage, back to the Trenches (Level 24, 2nd Visit).

GUIDE

LEVEL 23

CITADEL GATE

Drop down and approach the injured man (Aziz) to talk to him. Collect the Revolver ammo near Aziz and corner right.

Continue round the street until you see some narrow pillars on the left. Head left to collect a Small Medikit and Grenade Gun ammo. As you head past the pillars, a giant fire-breathing lizard monster will wake up – leg it past it him to the passage beyond.

Avoiding mosquitoes, head left, corner right, right, then left to see a low wall on the right. Climb over it and shoot the crocodile which comes from the far crawl-space. As you go to crawl in, another croc comes out, so shoot it. Enter to find Crossbow ammo and Revolver ammo. Crawl back and climb onto the low block in the left wall to drop into the crypt.

Head over to the switches on the far side and press I, then III to move the first tomb, revealing a passage. Drop down there and use the Crowbar on the switch to open a door. Exit the passage and go over to the switches again. Flick switch III back up, then switch II down. Turn around and head to the far right corner, to climb up to the ledge above to find switch IIII. Flick it to move the second tomb. Drop to the passage beneath it to find another switch. Flick it to open the door above, but watch out for the mosquitoes.

Head up to the opened door, shooting the bats as you go along. Follow the long passage, avoiding the mosquitoes which are found there.

Shoot the bats at the end, then jump to grab the rope. Swing to jump to the far small ledge. Turn left and stand-jump to the lower ledge. Run-jump to the next small ledge, then diagonally left to the next. Shoot the flying beetle then stand-jump to grab the wide ladder. Climb left around the corner to the next small ledge. Run-jump to the opposite ledge, shooting another flying beetle. Jump to grab the monkey bars and, as a beetle attacks, climb over to drop and grab the crevice. Climb left and pull up to the crawl-space to shoot the beetle and collect a Small Medikit. Drop to the small ledge and run-jump diagonally to the lower long ledge. Now run-jump to grab the far high ledge and pull up.

Follow the passage to the end, then run-jump right over the deadly pit to the

ledge with the crashed Jeep. Shoot a couple of beetles and a bat, then collect the Nitrous Oxide Canister from behind the Jeep. Run-jump straight over the pit, then head up into the passage and follow it back round, all the way to the lizard monster. Dash past it again and return to Aziz. Climb back up to the passage to return to the Chambers Of Tulun.

Climb down the ladder and head into the left passage. Jump and climb up to the left, onto the slope, to slide back down outside. Head left, back to the bike. Now ride it into the wide passage and up the slope to enter the Trenches (Level 24).

▲ You have to flick the right switch combinations to move the tombs, revealing more switches.

LARA SAYS

To make sure I'm lined up accurately for jumps to ropes etc, hold the L1 (look) button: if the rope (or ledge) is directly behind the middle of my head, you know you've got it right.

WALK-THRU

▲ See that bit of grey stonework in the crevice? Aim and shoot it in order to climb across.

LEVEL 24

TRENCHES

Ride the bike round to the far left staircase and up to run over the guard. Continue round to crush another. You'll have to find another way up the slope here, so head back round to the start. Get off and head past the palm tree and through the passage. Head left, corner right, then left, shooting the guard on the right. Proceed to the junction, where you get shot at – quickly jump up to the left for Uzi Clips and a Large Medikit. Slide back down the slope and run straight across the junction and right to take cover behind the crates. Now crawl round to the left corner, hugging the crates to avoid the gun sensing you. Shoot its fuel tank through the gap to destroy it.

Climb onto the other crates and up to the ledge for Grenade Gun ammo. Drop to the crates and run-jump to grab the opposite ledge. Pull up and drop into the passage. Corner right and head into the left crawl-space. Use your Laser-Sighted Revolver to snipe the guard at the other end. Crawl past the steam jets to enter the small room. Collect the Small Medikit and shoot the crate for Wideshot Shells. Head right into the alcove and climb onto the left block. Turn around to shoot the fuel tank of another flame-thrower gun, then the guard behind it. Head back through the crawl-space with the steam jets.

Continue along the passage and enter the crawl-space located on the right. Head past more steam jets to reach a short passage with a dead bloke in it. Collect the Weapon Code Key: this will prevent the guns shooting at you. Crawl back past the steam jets. Grab the crevice ahead and climb round to the right, over a deadly chasm, avoiding the steam jet.

Climbing round the far corner, drop to terra firma.

Watch out for the guard in the right passage as you head towards the crashed Land Rover. Shoot him, then use the Crowbar on the bonnet of the Land Rover to get the Valve Pipe. Combine this with the Nitrous Oxide to make the Nitrous Oxide Feeder for your bike. Watch out for another guard up on the right – shoot the crate there for a Large Medikit. Head back to the chasm and stand-jump to the opposite ledge. Collect another Large Medikit by the inactive gun. Stand-jump from the left of the ledge to grab the crevice again and climb left. Head back round the passage and climb out. Return back to the palm tree to your bike. Use the Nitrous Oxide Feeder on it to soup it up. Head back to the Chambers Of Tulan (Level 22, 2nd Visit).

2ND VISIT...

Ride to the right to get off by the palm tree. Look up to the left of it to see a crevice blocked by a bit of stonework – use the Laser-Sighted Revolver to shatter the latter. Now head up the nearby stairs. Head round to the red-lit area and shoot the guard on the roof. Head back through

the arch and climb into the right alcove to find a Large Medikit.

Head over to the opposite alcove to find a trap door above. Jump and pull it open. Climb through to the crawl-space on the left. Drop down the other side and grab the Crossbow ammo, then climb into the next crawl-space. Turn around and grab the edge of the crevice (which you unblocked earlier). Climb left along it and round the end to drop onto the ledge.

Grab the monkey-bars and climb across (you'll be attacked by mosquitoes). Drop off at the end and shoot the guard on the left. Grab his Small Medikit, then head right and use the Roof Key to open the doors. Head out onto the ledge and run-jump (from its left side) to grab the opposite crawl-space. Climb left along the crevice to pull up. Follow the short passage and climb onto the block. Look through the slit to see a control box with a red light. Use your Laser-Sighted Revolver to shoot it, opening the tall gate to its left.

Now hang-drop down and head back to the bike. Ride it up the steps below the newly opened gate and turbo it up the slope and through to land on the high ledge. Get off and climb up the ladder to enter the passage leading to the Street Bazaar (Level 25).

WALK-THRU

▲ On the roof, move the crates so you can push this one under the lightning to clear the bridge.

LARA SAYS

If I'm attacked by a swarm of mosquitoes, just keep me running around to shake them off. The last thing a girl needs is flies in her hair.

LEVEL 25

STREET BAZAAR

Drop down and head right to talk to the injured guard – collect the Mine Detonator Body that he drops. Get the Car Jack Body that is located behind the car on the left. Collect the Handle from the table below the ladder – combine it with the Car Jack Body to make the complete Car Jack.

Head over to the red button and press it to open the two doors. Enter the right one and follow the passage. Climb into the crawl-space by the ladder to find a Large Medikit. Crawl back and climb the ladder. Stand-jump from the end of the passage to grab the monkey bars, then climb right to the white ledge. Climb into the right crawl-space. In the small room at the other end, use the Car Jack on the short brick wall to open the hatch above.

Climb up to the roof where the lightning is striking. Head for the far left side to find some metal crates, but run back and forth to shake off the mosquitoes. Pull the funnel crate back once, then go around and push it again. Pull the crate by the lightning back once, then push it into the alcove where the funnel crate started. Now push the funnel crate back to the crossroads, then right to the lightning. The latter will be re-routed to blow up the barrier on the bridge.

Cross the bridge and run-jump to grab the ladder. Climb all the way round to the left to drop onto the small ledge. Turn around and stand-jump straight ahead to the non-sloping roof ledge, then proceed around to the right, avoiding mosquitoes. Collect a Large Medikit, Crossbow ammo, and Grenade Gun ammo from the

Secret area. Return around the path and then jump back to the small ledge that is by the ladder.

Climb through the left gap and hang-drop to slide down the slopes to the bottom. Exit the passage and head round to the right. Head down the sloping passage on the right to find a dead guy. Collect the Mine Position Data, then combine it with the Mine Detonator Body to make the proper Mine Detonator. Head back up the slope and watch out for another snorting bull! Lure him into smashing all the crates to collect Uzi Clips, Small Medikit, and Flares. Then get him to knock off the brown boxes in the corner, enabling you to enter the passage behind them. Follow it to the balcony and shoot the guard on the left. Head round to the left to enter the passage below the light leading back to the Trenches.

You slide down near the palm tree. Head back round through the tall gate to the slope below where the bike is. Thanks to a lowered platform, you can now stand-jump to grab the brick wall on the right, then pull up to return to the bike ledge. Climb up the ladder again to re-enter the Street Bazaar.

Enter the left door and follow the passage to a door. Kick it open and shoot

the guard, then head left to shoot another hiding behind the palm tree. Collect the Uzi Clips from underneath the arches (narrow pillars), then exit towards the red barrier to return to the Trenches.

Use the Mine Detonator to blow up the minefield; jump over the barrier and cross it. Press the red button to open the gates, leading back to the bike. Ride it through the gates then go left to run over a guard. Head up the slope, back to Citadel Gate. Turbo up through the barrier to leap over the deadly chasm. Ride right, then left up the slope, crushing crocs. Continue along the passage and past the lizard monster to return to Aziz. An FMV scene shows him turning kamikaze to drive the bomb truck into the monster. You're then transported into the Citadel (Level 26).

TOMB RAIDER IV

GUIDE

LEVEL 26

CITADEL

Head forward to see an FMV scene of Lara rescuing Jean, then Von Croy opening a tomb and re-animating some knights. Head left past the pillars, then to the back of the room there to find a staircase. Head upstairs and right to a room with a lever. Push it to open the large gate back in the first room. Collect the torch from the alcove, then light it on the flame there. Head back downstairs and jump up to light the cable, dropping a weight to break the floor in the first room. Head back there and enter the opened gate for Uzi Clips, then drop into the pit. Follow the passage round to the left. Collect the Wideshot Shells that are on the far left of the wide section, then head right and you will see a cut-scene of a baddie up above.

Drop into the water to collect some Grenade Gun ammo from the short underwater block. Climb out onto the low ledge and run-jump to grab the opposite block. Climb onto the wall behind the stairs (don't venture into the right corridor for the Large Medikit or you'll get flamed). Hang off the far side and climb left, then drop to grab the crevice. Climb right, round the corner, to see another crevice below. Drop to grab it and keep climbing right until you can pull up into the crawl-space.

Climb down the other side, into some shallow water. Collect the Uzi Clips on the far side, then climb right into another crawl-space. Save your game and climb down the other side to land on a slope.

Jump via another slope and grab the crevice. Climb left to pull up. Collect the Small Medikit, turn around, and run-jump to grab the opposite ledge. Shoot the guard at the top of the stairs, then head up there. Continue to the top to emerge on a high ledge above the large pool chamber.

Look right to see the baddie you saw earlier. Shoot him, then head up to his ledge: turn around and shoot the blue-robed guard who fires at you. Push the lever to turn off the flames in the corridor, then hang-drop through the hole to it – careful, you'll lose some energy. Grab the Large Medikit and proceed down the stairs to a large chamber.

There are four tables on the floor (including a dark one in the corner), each with a letter on it. This tells you which cardinal point to place them on – place the N table on the north floor circle (use your compass and don't leave the dark S table till last) and so on to open the other doors.

Head into the west passage and climb up to find a hole in the floor. Drop through into the water and swim into the south tunnel (there are three). In the small room at the end, pull the switch in the middle of the ceiling (from the left or right), then head back to the small pool for some air. Now swim through the north tunnel to climb out

in a pool (with a chain you can't pull yet). Follow the passage to return to the tables room. Head into the east passage and follow it down to a room with two guards. Shoot them, then push the lever.

Return up the passage to the tables room, then into the north passage to return to the pool with the chain. Swim along the tunnel to find the water level dropped at the end. Climb into the west tunnel and push the lever to lower the water further. Return to the pool and collect Uzi Clips from the opened left floor hatch then swim along the north tunnel and climb out. Follow the passage to the chain, which you can now pull to open the door. Climb out and blast the guard, then enter the door.

Follow the passage to a small room. Climb into the right crawl-space and down the other side. You'll be attacked by the two knights – don't bother shooting them, they're invincible. Turn left and head into the passage, up the wood ramp to reach the wooden blockage. The knights will follow you, jump over them at the last moment, so they slash through the blockage. Head through to climb up through the hole.

Follow the passage round to the left, then head right at the junction for some Uzi Clips and Flares. Head back to the junction and down between the rows of torches. Continue along the main path to see some FMV with Von Croy, who gets trapped. You're then transported to the Sphinx Complex (Level 27).

▲ No, Lara isn't in Australia. She's pulling a lever hidden in the ceiling of this underwater chamber.

WALK-THRU

▲ This is a tricky jump. You have to leap diagonally over the pit and turn left to grab the flat ledge.

LARA SAYS

If those red-robed guards start twirling their tridents, I can't shoot them. To stop them twirling, simply put away my guns, then immediately draw them again and shoot - that'll trick 'em!

LEVEL 27

SPHINX COMPLEX

Head along the path, ready to shoot two guards. The one on the right will drop a Silver Key. Use this on the lock to open the right door. Watch out for a couple more baddies on the right of the next area. Shoot them, then climb onto the near right wall. Run-jump right over the deadly chasm to push the lever. Jump back, then climb the far wall and run-jump over another chasm to push the lever. Jump back, then head right. Past the walls, you're attacked by a red Arab from the left. Kill him and grab the Shells that are in the right alcove before entering the opened door.

Turn right and slide down the right side of the slope to the ledge. Jump to the left ledge, then it's time for a tricky jump. Run-jump diagonally right from the corner, turning left in the air to grab the shallow-sloped ledge (the one to the left of the corner). Pull up and head for the next pit. Run-jump left to the flat ledge, then quickly turn right to shoot another guard. Collect the Large Medikit, then turn left and run-jump diagonally right to get to the next ledge.

Climb up and kick open the right door. Enter the room and blast the crates for Uzi Clips. Push the large shelf unit to the right to reveal a grating. Shoot open the latter and crawl through. Shoot the next grating and exit, ready to shoot a guard on the right. Blast open the crates to find a Metal Blade. Pull the left shelf unit away from the wall, then pull the second unit left. Collect the Secret Shotgun from the corner. Go over to the corner with the button and collect the Shells before pressing it. Be ready to blast two more baddies as the large gate opens.

Head outside and left, back to the first pit. Run-jump over to the right ledge, then the left one. Jump out and proceed to the next pit. Slide down to the left ledge. Run-jump straight ahead to the next small ledge, then right to another. Jump out and head round to the right to see a white stone on the right. Approach it and Lara will read the inscription in a cut scene.

Head back to the main path and round to the right to find another pit. Slide down to the right ledge, then run-jump right to the next. Quickly climb up and shoot the two red Arabs. Shoot the far left crates to find a Wooden Handle. Combine this with the Metal Blade to make a Shovel. Climb onto the step on the right, then jump onto

the Sphinx's leg. Collect the Wideshot Shells on the right, before sliding down to the white inscription stone. Use the Shovel on the muddy patch in front of it to dig a hole. Drop in and follow the passage to Underneath The Sphinx (Level 28).

LEVEL 28

UNDERNEATH THE SPHINX

Head down through the gate to see a short cut scene. Approach the right bull and it will start to come to life. Roll around and quickly dash back towards the entrance, then through the left gate. Roll around and wait until the bull starts to charge into the room: jump over it and head through the gate to quickly hit the switch just on the left, trapping the bull. Now use the same technique to trap the other bull in the other small room (if it gets out before you close the gate, simply flick the switch back up and try again).

Now head towards the hieroglyphic switches and round to the left. Collect the Flares from the skeleton, then the Scrap

TOMB RAIDER IV

GUIDE

Of Paper under the left flame. Examine this to see a translation of the hieroglyphic alphabet. Head back to the hieroglyphic switches: they translate from left to right as I, Q, and A. Press them in alphabetical order: A, I, then Q (that is: right, left, middle) to open the gate. (If you press them in the wrong order, you'll just open up a different room leading to a maze of torturous traps – so don't!)

Head left past the skeleton to find the middle gate open. Go through, but watch out for the deadly chasm – go to the right side to jump over it. Shoot the two bars, then head right to another chasm. Jump from the left side to clear it. Blast a couple more bats then take a look at the coloured niches up on the walls. Use your binoculars to zoom the view into each hole, holding X to light up the hieroglyphics there. They translate as follows: **red – AQI, green – QIA, purple – QAI, blue – IQA.**

Now head back to the hieroglyphic switches and enter the first combination: AQI (right, middle, left). Head left to find the right gate open. Enter it and shoot the bats, then head to the right of the chasm, jumping up to the top of the slope. Run-jump straight ahead to land on a small ledge (ignore the one on the left), then jump up to the right.

Shoot more pesky bats, then take a look around to see three crawl-spaces. Enter the left one first, lighting a flare to see in the dark. Head left at the junction, then straight ahead and left to find the Stone Of Maat. Head back the way you came (the other forks just lead to traps) to exit the crawl-space. Head left into the next one, turning right to drop through a crumbling platform. Collect the Secret Grenade Gun from the end of the

passage, then head back through the crawl-space to exit. Head left to enter the final crawl-space. Take the first left, then the first right (up the slope). Head left at the top, round to a switch. Flick it to re-open the gate you came through, then crawl back the way you came, to exit. Head back through the gate and round to the hieroglyphic switches.

Enter the next combination: QIA (middle, left, right). Head left and enter the left gate. Run-jump over the left side of the pit. On the other side are four crocodiles by the water – blast them with the Revolver or Grenade Gun. In the middle of the pool is an island with a closed grating: to open it, activate the four hole switches – two on the left, two on the right. Drop into the grating to collect the Stone Of Khepri. Climb out and flick the switch on the far wall to re-open the entrance gate. Head back there, shooting another bat, and run-jumping to grab the far right of the pit.

Return to the hieroglyphic switches and enter the next combination: QAI (middle, right, left). Head right to enter the right gate. Stand-jump from by the torch on the right of the pit to land on the flat ledge. Grab the edge and climb left around the corner to pull up on the next flat ledge.

Jump left up the slope and shoot the bats. You now have to swim to five switches, in the correct order...

Drop into the water hole and dive down to the junction. Head right (south) and down to another junction. Swim to the left (east) and corner right (ignoring the up shaft there). Head straight (south) past the next junction and follow the tunnel, past a hieroglyph panel, to surface in a small room. Flick the switch and drop back into the water.

Follow the tunnel around, straight (north) past the junction to corner left (ignoring the up shaft). Continue westwards (ignoring the up shaft), until you can go up or down. Swim up to surface in the second small room. Flick the switch and jump back into the water.

Head left (east) at the first junction, then up at the next. It's best to head up at the next junction to catch some air at the entrance room, as there's a long swim to the next switch. Dive back down to the junction and head east. Ignore the up shaft and corner right (south) and continue down to the next junction. Head south again, then right (west) at the next junction. Swim up at the final junction (by hieroglyph panel) to surface in the third room. Flick the switch and jump back in.

Head east at the first junction, then left (north). Head up at the left corner, then

LARA SAYS

To get the greatest distance from rope swings, climb down to the bottom of the rope (when it stops moving enough to do so), then aim and hold R2 to swing. Give me two or three swings to build up my momentum, then at the end of the forward swing, press jump.

LARA SAYS

I can blow up skeletons and mummies with the Grenade Gun, but sometimes it's best just to avoid them and save precious ammo.

▼ Ahem... how did this get in here? Tip: Use the Look button to get a good view of the scenery.

WALK-THRU

▲ There are nine holes along these walls, but most contain nasty beetles.

corner left at the next (ignoring the up shaft). Continue up and head right (north) at the junction to surface in the fourth small room. Flick the switch and jump back in.

Swim down at the first junction, then left (east) at the next. Swim up at the right corner to surface in the fifth room. Collect the Stone Of Atum Key, then flick the switch on the opposite wall to reopen the entrance gate. Jump back into the water and swim west at the first junction, then up to the entrance room. Slide to the flat ledge and climb right around the pit edge to the next ledge. Jump right over the slope and exit.

Back at the hieroglyphic switches, it's time to enter the final combination: IQA (left, middle, right). Head right to enter the opened middle gate. Shoot the bats and jump over the small pit to an area with lots of hole switches on the walls. First, press the right switch on the middle (east) wall, to collect the Stone Of Re. Then press the right switch on the left (north) wall to reopen the entrance gate. Don't touch any of the other switches unless you want a load of deadly beetles

pouring out! Jump back over the pit and exit.

Head straight past the hieroglyphic switches and skeleton, to re-enter the middle gate. Jump over the two pits, as before, to reach the area with coloured niches where you got the hieroglyphic codes. Insert the four coloured Stones you've just collected into the holes beneath the niches to open the gate.

Enter it, but watch out for the chasm around the corner. Monkey-climb along the ceiling to cross it. Drop off at the far end to shoot the bats which attack. Save your game before entering the gate. As soon as you enter, spinning ceiling spikes will start to descend – you need to quickly collect the four Holy Scriptures from the left and right alcoves (jump sideways from one to another on the same side), then exit through the opened far gate. Walk slowly through the next small room, though, to avoid being hurt by the blade traps. Then monkey-climb across another chasm and shoot the bats as you follow the path along which takes you up to Menkaure's Pyramid (Level 29).

WALK-THRU

▲ The hatch handle is on the far edge, but you need to be facing the other way (north) to pull it.

LEVEL 29

MENKAURE'S PYRAMID

Climb up the left blocks and look up to see a closed hatch. The handle is on its far edge, but you need to be facing the other way (north) to jump straight up and pull it open. Climb up through the hole, ready to face a giant scorpion – blast it with a Revolver before it can sting and poison you. Head to the crossroads to see another scorpion attacking the guard on the left – when it's killed him, shoot it. Grab the Revolver ammo the guard left. Return to the crossroads and head left for a Large Medikit. Back at the crossroads, head left again.

From the left edge of the pit, jump diagonally left to the next flat ledge. Head around the corner, ready to blast another scorpion. Run-jump over the right side of the left pit to grab the far side. Pull up and quickly shoot the scorpion and flying beetle. Go right to find a pit. Walk to the edge and turn right, then run-jump to grab the ledge. Climb up to start sliding, then quickly jump to land on the flat. Jump left to the main path and shoot the flying beetle.

Save your game before entering the right door. Inside, a scorpion is attacking a guard. If you're quick enough, you can run in and blast the scorpion to kill it before the guard dies. In this case, he'll hand you the Guards Keys and the Armoury Key (the latter opens a Secret on Level 32). If not, you'll just get the Guards Keys. From the corners, collect Shells, Small

Medikit x2, and Wideshot Shells. Then exit back outside.

Head back to the left and walk along the right side of the pit. Jump up to grab the sloping edge, then climb left around the corner and as far as you can before dropping down on the other side of the pit. Now jump onto the raised pyramid tile nearby and walk diagonally left to the next. Climb up to the right, then jump diagonally left to the next. Walk left and shoot the flying beetle. Walk to the far left corner of the long ledge, then hop back to do a running jump. You'll slide down to the next ledge – be ready to shoot another flying beetle. Head forward to the end of this ledge, then right to the next tile. Climb up to the next, then sidestep

right to climb the next two ledges. Walk to the far right corner and shoot another beetle, then run-jump to land on the ledge located by the gates. Use the Guards Keys on the lock and then enter to reach Inside Menkaure's Pyramid (Level 30).

LARA SAYS

When doing a running-jump, you can hold X (grab) to lower my trajectory – which may avoid me hitting my head. However, the distance of the jump is slightly reduced, so beware.

▼ Watch out for giant scorpions. If they manage to poison Lara, use a Medikit to cure her.

TOMB RAIDER IV

GUIDE

LEVEL 30

INSIDE MENKAURE'S PYRAMID

Head down the slope and shoot a bat. Time your runs past the two swinging blades, then shoot more bats. Head round to the top of the stairs and look up above the blades to spot a star. Use the Laser-Sighted Revolver (or Crossbow) to shoot it (to open a hatch further on). Head downstairs and use the Grenade Gun to blow up the mummies, then shoot the bat. Collect the Revolver ammo from the far left, then jump into the 'skip'.

Drop through the hole to the passage. Head down to a chamber with a rope over a spike pit. Run-jump to the rope and swing over. Grenade or avoid the mummies (and bat) as you proceed to the right. Use the two ropes to swing over the spike pit. Head up the passage and flick the switch to open a hatch. Swing back via the ropes and head round to the right and another pit. Use the ropes to swing over it. Follow the passage and climb up through the opened hatch.

Keep jumping sideways to avoid the firebolts of the Egyptian guardian as you shoot him. When he's dead, use the Crowbar to pull the Western Shaft Key from the large star that is on the far wall. This will open a passage by the stairs near the start of the level. Head all the way back there to enter it. Slide down and walk along the next passage – as soon as you hear a click, duck to ensure you avoid the passing blades! You're then

safe to continue around to the end of the passage.

Jump to pull open the hatch and climb out, ready to shoot two giant scorpions on the right. Head that way and left between the pyramids to see a small switch in the left alcove. Press it to open the top of the other pyramid. Head back to the left, shooting a scorpion, then left towards the pit. You need to climb the pyramid on its left. Climb up the first two flat ledges, then run-jump right to the next. Turn left to climb up the next two ledges, then jump diagonally left to the raised tile at the top. Turn around and hang-drop to the ladder to climb down to the bottom.

Follow the passage to a pit and run-jump over it. For the next pit, jump to grab the monkey bars and climb to the far side. The next pit has a swinging blade – time a running jump along the left or right side to grab the far side. Repeat the process for the next pit. Ignore the left passage for now and continue past another pit until you come to a chain. Pull it to open a gate elsewhere.

Return past the last pit and jump up to grab the monkey bars. Climb right into the passage you ignored earlier (it has no floor) to reach the room with the opened

gate. Save your position before entering it – the next bit could be deadly. You'll slide down towards a spike pit; jump near the edge to clear it. You'll slide down another slope – jump to the far slope and grab the edge of the hole to avoid losing energy as you drop in. Head up the path to return to the Sphinx Complex.

Climb out (of the hole you dug before) and head round to the right. Cross the pit to reach the metal gates. Use the Guards Keys to unlock them and enter The Mastabas (Level 31)

▲ After opening the top of the next pyramid, climb up it. Climb down the ladder to enter safely.

▼ There's no floor in the passage between the swinging blades, so you need to monkey-climb.

24. After passing third spiked ball, climb up ladder in right roof hole and backflip to ledge.

LEVEL 31

THE MASTABAS

Head round to the left and shoot the dog. Head behind the lorry, shooting another dog to collect the Jerrycan between the petrol pumps. The door is locked, so head back past the truck and into the left alley to find a door on the left. Kick it open and enter. Collect the Revolver ammo, then pull open the floor hatch. Drop in and shoot the dog, following the passage along to a junction.

Head left and follow the passage to a small room. Shoot the two dogs, then collect the Small Medikit and Crossbow ammo. Now use your Laser-Sighted Revolver (or Crossbow) to shoot the gems in the three wall-mounted wolf-heads' mouths. This opens the far door, releasing some mummies. Either blow them up or avoid them as you enter the opened passage where you can collect the Small Waterskin (Empty).

Head back to the junction and left. Follow the long passage, shooting a couple of dogs, to find a ceiling hole at the end.

Climb up to emerge outside and shoot the bats. Go through the short passage to find yourself between two pits. Head right and shoot the dog before taking a running jump over the pit to the far (east) side. Shoot the 'Danger' sign (pah!) and enter the door, killing the dog and bats. Open the floor hatch and drop in.

This section's similar to the previous tunnels. Head right at the junction, shooting two dogs, to reach another room with wolf-heads on the walls. Use the Laser Sight to shoot the gems in their mouths, as before, to open the far door, releasing a mummy and bats. Collect the Bag Of Sand from the opened passage, then return to the junction and head right. At the next junction, head left and shoot the dog. At the end you'll find a Large Medikit and Revolver ammo. Return to the junction and head left, shooting another dog.

Climb out of the hole at the end and shoot some more bats. Open the door and shoot the barrier. On your left you will see another pit. Run-jump from the left edge to the small corner ledge on the right. Do another running jump to the next path (north). Head right and shoot the two (small) scorpions before opening the floor hatch.

Drop into the passage and turn left at the junction. Shoot the two dogs, then the bats in the room. Use the Laser Sight to shoot the gems in the wolf-heads, as before, to open the door. Enter and shoot the bats. Go past the three scales to some shallow water. Fill the Small Waterskin then use it on the scale with the water symbol (left one as you enter room). Use the Jerrycan on the middle scale, and the Bag Of Sand on the right one. Head back to the junction and straight over. Shoot the dog and collect the torch at the end. Return to the scales room and light the torch on one of the flames, then use it to light the middle scale.

A door opens on the left, so enter it. Blast the mummies and use the Crowbar to pull the Northern Shaft Key from the far wall. Then use the Laser Sight to shoot the gems in the two wolf-heads. Return to the scales room to enter the opened opposite door. Shoot more gems in wolf-heads, then shoot the dogs as you enter the far doorway. Follow the passage to a junction and head left for a Large Medikit.

TOMB RAIDER IV

GUIDE

LARA SAYS

Sometimes I need to use the Laser Sight, with the Revolver or Crossbow, to aim at things, such as the gems that are in the mouths of the wolf-heads in the Mastabas.

Shoot the dogs on the way back to the junction and go left to climb up out.

Shoot the scorpions as you head out through the short passage to find a pit on the left. Walk along the left ledge and run-jump left to the path there. Turn around and run-jump (from the left edge) to grab the far (south) ledge. Open the right door and shoot the bats. Then open the floor hatch and drop in. Follow the passage, shooting a scorpion, to the junction. Head left to shoot a scorpion and collect Revolver ammo. Return to the junction and go left, shooting scorpions, to climb out at the end.

Shoot the dog and Danger barrier and enter the opposite door. Shoot the bats and open the floor hatch to drop in. Head right at the junction to collect a Small Medikit, then head back past the junction, shooting a dog. Continue to the room, blasting dogs and bats. Use the Laser Sight to shoot the gems in the wolf-heads.

Enter the opened door to a room with three monkey statues. Use the Crowbar

on the switch in front of the right statue to open the right door (the others release real monkeys). Enter and blast/avoid mummies, then use the Crowbar to prise the Southern Shaft Key from the far wall. Return to the

statues room to find the opposite door is open. Enter and use the Laser Sight to shoot the gems in the wolf-heads. Follow the far passage and slide down the slope. Climb the steps and head up to The Great Pyramid (Level 32).

LEVEL 32

THE GREAT PYRAMID

Follow the passage round and climb out at the end. Collect the Small Medikit and Shells before heading through the doorway and shooting the barrier. Be ready to shoot a guard on the right as you exit. Head left to the pit and run-jump to the path on the left. Turn round to shoot the two guards. Open the door and shoot another guard, then the flying beetle. Open the floor hatch, but don't drop in! It's a long way to the bottom, so hang-drop to the ladder to climb down. Collect the Secret Grenade Gun from the end of the passage, then climb back up the ladder.

Turn left to see another passage and blast the barrier. Kick open the opposite door and kill another guard. Don't bother with the floor hatch here - it's just a deadly drop. Open the far door and head outside. Round to the left is another Danger barrier: shoot it and enter the door. Blast the two flying beetles and collect Grenade ammo and Uzi Clips from the corners. Open the floor hatch for a Large Medikit.

Exit the room and approach the huge pyramid to see a short cut-scene - it's going to be a long way up. Head out onto the ledge to run-jump over the chasm. Slide down to the ledge on the left. Run-jump to grab the far ledge. Walk onto the next tile (it's not a slope) and climb up to the right ready to shoot a flying beetle. Walk onto the next flat ledge, then climb up to another. Turn right and run-jump to the next flat ledge, but immediately walk backwards a couple of steps to avoid the falling block!

Stand-jump to the flat tile then to the next, stepping back to avoid another

falling block. Climb up to the left, then turn right and stand-jump to the flat tile, then to the next. Stand-jump again to slide down to a ledge - don't move until the falling block has passed! Drop to the flat ledge just below. Run-jump across the chasm to grab the opposite ledge. Pull up and turn left to shoot the flying beetle, then run-jump to the sloping ledge there. Turn left and walk to the right corner. Run-jump back towards the pyramid, grabbing the low ledge.

Climb onto the next ledge and walk to the right - but not onto the slope or you'll fall! Stand-jump to the ledge with the Large Medikit. Turn around and jump diagonally right to the next flat tile, then immediately stand-jump to the next to avoid the falling block. Stand-jump diagonally again to the next tile. Turn left to stand-jump to the tile, ready to blast another flying beetle. Walk up onto the next tile and climb to the ledge.

Turn right and stand-jump to the tile. Do another standing jump to the next tile, but quickly backflip to avoid the falling block. Stand-jump to the tile again, then turn left to climb up via the next tile to the ledge. Walk left and shoot the two flying beetles, then turn right to climb up to the longer ledge. Walk as far left as you can, then do a running jump to slide down to a ledge. Turn left (west) and run-jump to the next ledge, ready to shoot a flying beetle.

Don't bother climbing up the right ledges. Instead stand-jump (west) across to the next tile. Stand-jump again to slide down to the tile just below. Stand-jump diagonally up (northwest) to the next flat ledge. Walk left to the edge and stand-

jump (west) to slide to the next tile. Stand-jump diagonally up (northwest) again to the next ledge. Climb up to the next tile, shooting a flying beetle. Climb up the next two ledges, then stand-jump diagonally left (northwest), up to the next flat tile. Turn left to stand-jump across (west) to the next tile, then quickly stand-jump forward to avoid the falling block. Now walk to the edge and do a running jump (west) to slide all the way down to Khufu's Queens Pyramids (Level 33).

WALK-THRU

25. Climb down ladder that is in L-shaped pit and go left under crawl-space. To enter it, release X, then immediately hold X (to hang) and press L2 + Δ before Lara puts her legs up again.

L7 TEMPLE OF KARNAK

26. Head left from the monolith, through middle arch. Enter left crawl-space to reach hall. (Head round to urns and shoot them for pick-ups.)

27. Diving down in pool, enter underwater door and surface through ceiling hole.

28. From 27, swim further round and left through narrow gap to underwater room.

29. In altar room (with two sets of monkey bars), climb into near left crawl-space.

L9 SACRED LAKE

30. After using Sun Talisman, enter south door. In water below pole, swim east to enter underwater door.

L10 TOMB OF SEMERKHET

Note: For secrets 34-37, you must have lost at the game of Senet.

31. From first ledge above Senet board, jump left to ledge and climb ladder up to right passage.

32. After raising cage in fire holes room, jump to ledge and climb round ladders to right to crawl-space.

33. After losing at Senet, enter the left floor trapdoor and slide down the slopes: jump from the third slope to grab ledge.

34. From 33, slide down again and grab pole. Climb down to room with two ropes. Use first rope to swing to red ledge and push open the secret doors.

35. In the chamber with three ropes, swing straight from the third ledge to far ledge.

36. When you reach high pole after three ropes, collect torch from hole by dropped hatch. Throw torch to floor and climb down. Light torch on flame by three ropes, then light two wall torches to open trapdoor. Drop down and backflip past blade trap, but beware of beetles!

37. After jumping across from dropped hatch (by torch hole), climb up through hole and pull switch to raise cage. Climb up via latter through hole.

L11 GUARDIAN OF SEMERKHET

38. In passage leading to bull, use monkey bars to climb to crawl-space leading to pit with fires.

39. Past bull, continue round to dark room. Collect torch from hole and head back round to flame to light it. Head back to the hole room and light both torches to open door to the secret passage.

40. After luring the bull to hit all three eye panels, take the right-hand passage. Climb ladder and go left to small room.

LEVEL 33

KHUFU'S QUEEN PYRAMIDS

Follow the path to see a man fighting a giant scorpion – shoot to kill both of them. Head left, down to the door. Enter and shoot the right crate for a Small Medikit. Head through the open gate and shoot the right crates for Revolver ammo, Crossbow ammo, and Grenade ammo. Blast open the left crates for Wideshot Shells, Uzi Clips, and Grenade ammo.

Exit back outside and round to the left to see another door down to the left. Enter to find a locked gate. You need the Armoury Key (from the guard you saved in Level 29) to open this and enter the Secret area.

Shoot the crates for a Crossbow, Grenade Gun, Revolver, Shotgun, Uzi, Shells, and Crossbow Ammo.

Head back outside, ready to blast a giant scorpion. Head north to the pit and walk around the left side to stand-jump to the flat ledge. Do a running-jump around to the path on the left. Quickly blast the scorpion, then turn around and run-jump

over the chasm to grab the opposite ledge. Stand-jump right to the next ledge, ready to blast a flying beetle. Climb up onto the next ledge, then run-jump left to land on another – but don't try to grab or you won't reach it! Then stand-jump slightly left to the next ledge. Turn left to run-jump back across the pit, aiming slightly right to grab the ledge (just to the right of the missing tile).

Turn right and run-jump to the ledge, ready to shoot the flying beetle and giant scorpion – tip: keep away from the edge! Follow the path around to the left for a Small Medikit. Then push the oddly shaped block to the end of the path to open a passage just to the left. Enter it and open the floor hatch. Hang-drop to the ladder and climb down.

Head through the gate to the labyrinth. Head right at the junction and shoot the (small) scorpion past the falling wall.

Reach into the first hole on the left wall for a Small Medikit. However, don't touch the second hole or beetles will pour out.

Corner left and shoot another scorpion.

Head right at the junction and corner left to a passage with torches. Ignore both wall holes and corner left to shoot a scorpion. Head right at the junction and shoot the scorpion. Corner left and ignore the wall holes. Go right at the junction to finally reach the star room.

Jump sideways while blasting the Egyptian guardian (and scorpion). When he's dead, use the Crowbar to prise the Eastern Shaft Key from the star. You now have to head back through the labyrinth.

42. Use Crowbar to open the broken panel in the third carriage along.
43. Use Crowbar to open panel in first carriage.

L13 ALEXANDRIA

44. After meeting Jean, exit to balcony and jump left to ledge, shooting guards. Turn right and jump to grab roof, then climb right to drop and pull switch. Open door, shoot guard and enter the secret alcove there.

L15 CATACOMBS

45. In the large chamber with two ropes, swing south from the second to grab ledge.
46. After collecting first Trident, head back down to floor and round to tall room. Floor will rise, lifting you to secret alcove.
47. In the passage leading to the second Trident, destroy all five bone piles (including one back by the pole) to open a secret door.
48. From 47, walk across the floor until the view changes. Climb down the pole and jump into the left area to find the opened door on the right.

L16 TEMPLE OF POSEIDON

49. Taking the north passage from the big pit, drop into the pit, turn around, and enter the left crawl-space. (Note: You must do this before flooding the pit.)

L17 LOST LIBRARY

50. Where you get the first Golden Star, drop below the left large cog.
51. After defeating Horseman, head through the wide passage and round to the end where there is a sloped block. Use Crossbow with Laser Sight to shoot the switch above it to open up nearby gate.
52. Sliding down to large chamber with large lion statues, jump to grab ladder. Climb up and jump right to the ledge.

L18 HALL OF DEMETRIUS

53. On ledge where you met Von Croy, push lantern towards bookcase to open it and enter to return to the Coastal Ruins.

L20 CLEOPATRA'S PALACES

56. Ride the bike left from the roof guns to reach a large pit. Head up left side of slope to jump from highest point, then steer slightly right to land on lowest edge. Climb up by stone statue. Jump to grab right slope, then pull up and hold jump button to leap via other slopes to grab high ledge. Pull up and drop down other side.

LEVEL 34

INSIDE THE GREAT PYRAMID

Proceed down the path carefully to reach a pit. Drop to the lower left side and run-jump across it. Get your gun ready to blast a couple of Arabs (including a red one). Once they're dead, head right and follow the passage, shooting another guard. Head through the gate and shoot another red Arab.

Walk between the slopes and some pillars will start sliding from side to side. To bypass each one, hug either wall and walk as near to the pillar as possible, then

stand-jump forward just as it moves out from that side. Be ready to shoot three dogs in the next room as you head around the rear to enter the 'skip'. Collect the Small Medikit and torch. Light the latter on a flame then use it to light the other four on the wall. This opens a short passage in the west wall: enter it to collect Wideshot Shells and flick the switch, opening a door above the two slopes. Shoot a couple of dogs in the torches room, then return past the sliding pillars. Shoot the bat and head up either slope to enter the door.

After a short cut-scene, place your four Shaft Keys in the stars on the walls,

Looking out for scorpions, go straight on at the first junction, right at the next, left (grab the Shells from the first hole), left, right, then straight over the last junction through the open gate. Climb back up the ladder.

Head back round to the pit and run-jump to the opposite ledge below the pyramid. Run-jump left to the ledge. Stand-jump to the next, ready to shoot a flying beetle. Turn right to climb up, then walk right to climb up to the next tile. Stand-jump diagonally left (northeast), then repeat to the next ledge (stay put to avoid the falling block). Walk to the end and do yet another standing jump (northeast). Head left along it, ready to shoot two flying beetles. Then climb up to the gates and use the Guards Keys to open them. Enter to reach Inside The Great Pyramid (Level 34).

causing the light beams to open a hole in the floor. Now flick the switch between the two stars on the far wall to reopen the gate located below the slopes. Shoot the two guards who arrive, then head back past the sliding pillars to find that a light beam has destroyed the skip. Enter the opened short passage on the right. Collect the Large Medikit that is on the right, then flick the switch on the left to open a gate.

Head back past the sliding pillars and through the gate. Follow the passage back round to the original slope, shooting any guards there. Head right down the slope to another pit (just past the narrow section). Stand-jump over it – don't run or you'll fly into the second pit. Shoot bats, then run-jump over the next pit to the far ledge. Shoot a guard, then stand-jump over the pit. Drop down to the next platform for a Large Medikit, then stand-jump over the final pit to enter the room.

Shoot more bats, then grab the edge of the light-beam hole and climb down (all the walls are climbable) to enter the east

LEVEL 35

TEMPLE OF HORUS

Head round to the right and collect the Large Waterskin from by the steps. In order to balance the scales, you need to pour two litres of water (as indicated by the two markers on the side walls) into the left vase (get it wrong and the rear cage opens, releasing that vicious creature). So fill the Large Waterskin from either pool to get five litres, then combine it with the Small Waterskin, leaving two litres in the large one. Use the latter on the scales vase (make sure that you are standing right next to it or the water may pour onto the floor) to balance them. This will then open the floor grating.

Drop through to the passage and follow it to a torch-lit room, shooting bats. Jump to grab the pole and time your slide down past the blades. When you reach the bottom, shoot those pesky bats. Head through and right to another scales room. As there are four markers on the side walls, you need to pour four litres of water into the vase. First, empty

your Small Waterskin on the floor. Fill the large one and combine it with the small one. Empty the small one again, then combine the large one with the small one to empty the two litres into it. Refill the large one and combine it with the small one, leaving four litres left in the large one. Use this on the vase to balance the scales.

Drop through the opened grating and continue up to find another pole room. Shoot the bats and jump to grab the pole, sliding down past the blades. Shoot the bats and head through to yet another scales room. This time you need one litre of water to balance the scales. Your Small Waterskin should already contain three litres, so combine it with the empty large one. Refill the small one and combine it with the large one again, leaving one litre in the small one. Use

this on the scales vase in order to open the grating.

Drop through to the passage and head up to the beam of light. Stand-jump to grab the far side of its hole and climb down: continue past the opened pyramid and climb right to the block to see a cut-scene. Turn right to walk to the left corner, then run-jump to land in the water below. Climb out onto the north side of the island. Place the four Holy Scriptures on the pedestals, then approach the light beam and watch the cut scene of the statue of Horus coming to life.

There's no point shooting at Horus, so quickly jump into the water to avoid his firebolts. Dive to the bottom on the north side to find the Amulet Of Horus. Swim round to the southwest corner of the chamber to climb out onto the low outer

TOMB RAIDER IV

ledge there. Jump left to the path and follow it up to enter a small room. Flick the switch to open the gate on the far side of the large chamber.

Drop back into the water and swim round to the northeast corner to climb out onto another low outer ledge. Jump left to the path and follow it up to enter the gate you just opened. Flick the switch to bring up the lock by the pyramid seal. Drop back into the water and surface on the southwest low ledge again. Head up the path and run-jump from the end to land on the ground ahead. Head to the corner and turn left (north) to run-jump and grab the platform. Run-jump to grab the next ledge. Jump up the slope to the path.

Climb the block and jump up the slope to find a Small Medikit on the left. Head round to the south of this high ledge and walk to the right corner. Run-jump a little to the right to grab the next ledge. Take care not to hit your head on the jagged ceiling on the next jump. Hop back from the edge but walk an extra step back. Do a run-jump-grab to land on the ledge behind the jagged ceiling. Follow the path round and turn right (west) to run-jump and grab the crawl-space. Pull up and crawl through to hang-drop down.

Follow the path and run-jump from the end to grab the high ledge, next to the light beam. Run-jump north to grab the climbable wall, then climb right into the beam (where you can't be shot) and up onto the ledge where you first came in. Turn left and grab the wall to climb left and up through the beam. You will then see a cut-scene of Lara using the Amulet Of Horus to lock the pyramid, thereby sealing Horus in.

Save your game and exit through the gate. Time your standing jumps past three sliding pillars, as before. Head to the left side of the next ledge to avoid the pillar falling in the middle. Run-jump from the top to grab the far ledge. Pull up and immediately run forward a bit to avoid the falling pillar. Run-jump from the top to grab the crevice, then climb right to pull up. Head round to the right and run-jump from the top to grab the next ledge. Climb left to pull up in the middle and immediately run forward to exit and complete the game.

▲ Grab the crevice and climb right. The last few jumps aren't too tricky - just avoid the falling pillars.

THE END FOR LARA?

[1] Lara emerges at the exit of the crumbling Temple Of Horus.

[2] And look who's there to greet her... Werner Von Croy!

[3] He beckons her out, but Lara doesn't really trust him.

[4] The roof collapses and Lara hangs on for dear life. Is this the end?

LARA SAYS

I can't kill those charging bull creatures, no matter what weapon I use. I either have to make a run for it or trap them in a cage.

LARA SAYS

Make sure I put the correct amount of water in the vases to balance each set of scales in the Temple Of Horus. The amount in litres is indicated by the number of marks on the side wall. If I get it wrong, a vicious creature will be released from the cage.

READY 2 RUMBLE

GUIDE

IN TRAINING

In Championship mode there are a number of training methods that you can undertake to build your boxer into a fighting machine, to climb to the top of the Ready 2 Rumble rankings. Each piece of training apparatus builds up two or more of your boxer's four attributes: strength, experience, stamina, and dexterity. Most of the training modes take the form of mini-games, requiring skill and timing to succeed. However, each training session costs money, ranging from a paltry \$500 to a massive \$25,000 – naturally, the more money you spend, the greater the benefits.

RUMBLE AEROBICS

Cost:\$500
Benefits:Dexterity, Stamina
Effectiveness:3

There is a row of four button symbols and directions over which a small ball bounces: as the ball lands on that letter/direction, you must press the corresponding button or D-pad direction to succeed in the discipline.

At \$500 a throw, you can't expect to reap much of a reward from this exercise and it isn't even particularly easy to get to grips with as timing (as with all these exercises) is all important – so no chance to look down at the buttons.

SWAY BAG

Cost:\$1,000
Benefits:Stamina, Dexterity
Effectiveness:4

The object of this training is to hit the sway bag with a left jab, then follow the pattern that is set whilst avoiding being hit in the gob.

Although more effective than the Aerobics training, it still doesn't do a huge amount for your boxer's attributes unless you do it repeatedly.

SPEED BAG

Cost:\$1,500
Benefits:Stamina, Dexterity
Effectiveness:5

Similar to the Sway Bag training, you must strike the bag using different punches to make it hit the ceiling. The more times it does, the greater the benefits to your boxer.

Substantially more effective than the Sway Bag, the Speed Bag is good for building up your Stamina. However, you'll still need to have a few goes to reap any real benefits.

HEAVY BAG

Cost:\$2,000
Benefits:Strength, Stamina, Dexterity
Effectiveness:7

As your trainer calls out a punch, you must perform the move. Complete the moves in as quick a time as possible to continue the exercise. It takes a while to get used to, but you do get three attempts to get it right each time.

Heavy Bag is the only form of training to beef up three of your attributes, so it's pretty good, especially for your strength, but is hard to get the hang of.

WEIGHT TRAINING

Cost:\$5,000
Benefits:Strength, Stamina
Effectiveness:8

You hold down X to lift the weight and then release the button to bring it back down again. There are two bars on a chart: one near the top and one near the bottom – you must try not to go over or under these marks, as the nearer you stay to them, the more beneficial the training will be.

This is probably the best form of proper training, as it builds up your two most important attributes: Strength and Stamina. It's worth the extra dollars just for this.

RUMBLE MODE

If you successfully land a powerful punch on an opponent, a letter will appear – when you have all six, they'll spell out RUMBLE. You can then activate the RUMBLE mode by pressing L1+R1 simultaneously. This makes your gloves glow for a certain time, giving you full stamina and the opportunity to inflict more damage on an opponent quickly.

Some characters even have special moves that can only be pulled off when in RUMBLE mode. These will inflict even more damage. Also, if you press X + ● together when in RUMBLE mode, you will unleash your character's special Rumble Flurry to make sure your opponent won't be getting up again in a hurry. A useful hint to remember regarding RUMBLE mode is that your RUMBLE will last longer, the higher your stamina – so if your stamina is up to 50%, you can perform as many as three Rumble Flurries instead of two if your stamina was 30%. Obviously the effectiveness of this depends on the standard of your boxer's Rumble Flurry, but it can prove to be lethal.

VITAMIN TRAINING

Cost:\$10,000
Benefits:Stamina, Dexterity
Effectiveness:7

One for all the lazy boxers out there: all you have to do is pop some pills. The benefits will be instantaneous. I wonder what kind of 'vitamins' these are?

If you're failing to build up your Stamina and Dexterity in the gym, this is the easy way out. It costs a lot and the benefits only amount to a few workouts on the Speed Bag, but if you're impatient, this is the way to go.

RUMBLE MASS NUTRITION REGIME

Cost:\$25,000
Benefits:Strength, Experience
Effectiveness:9

As with the Vitamin Training programme, there's no need to exercise those fingers with a mini-game to reap the benefits, only this time they are far more substantial.

As an easy way out of training, you can't go wrong as it does wonders for your Strength and Experience. Although not something you'll do often, due to its sky-high price and probable side effects, it's an ideal way to get your boxer off to a flying start in the competition.

UNLOCK BRONZE CLASS BOXERS

If you haven't got to time to hang around waiting to train your boxers up and want access to all the bronze class boxers, enter BRONZE as a gym name in Championship mode. This will also give you Kemo Claw in Arcade mode.

FIGHT IN THE GYM RING

To fight in the gym ring, hold L1+R1 when selecting a boxer in two-player mode.

RESTORE ENERGY LEVELS

To recharge your energy when you have been knocked down or have knocked someone else down, you can press L1+R1.

GUIDE

PRIZE FIGHTS

Considering that you only start off with a measly \$1,000 in the bank, the first thing you should do is enter some prize fights and bet as much as possible on each one. As long as you win the bouts, this is a quick and easy way to get the money rolling in – money which can be spent on training your boxer so that he will be in a suitable state to take part in Championship fights.

TRAIN LIKE A LOCOMOTIVE

Although the cheaper forms of training like the Sway and Speed Bags are a useful way to build up your boxer's credentials, it's best to save up enough dollars so that you can buy a Rumble Mass Nutrition Regime, as this will instantaneously boost your Strength as well as your Experience. This is useful early on, as it gives your boxer a flying start when he does enter Championship race.

STRONG ARM TACTICS

When training in the gym, it is best to build up Strength rather than Stamina and Dexterity, due to the fact that high Strength levels increase damage inflicted on other boxers, as well making you less vulnerable to hits yourself. If you do build up your Strength to a sufficient level, it will make beating opponents easier. Indeed if you manage to build it up to 100% you'll become virtually invincible as each punch will inflict maximum damage and hits on you will have virtually no effect.

BACKGROUND:

If they're going to call Tyson an animal, then Butcher Brown is a slaving beast. Don't be mistaken, he's really hard. Having lost his championship title to Boris Knockimov, Butcher took some time out from the sport and only returned to the ring after his lust for fighting was reawakened by his friend and fellow boxer, Kemo Claw. With renewed confidence, Butcher is out for revenge – and you can be sure he's going to get it.

BACKGROUND:

Hailing from the streets of New York, this one time cabbie is used to violence in one form or another. More a showman than anything else, Afro (and that really is one big afro) injects a huge amount of fun and flare into the ring. He is guaranteed to liven up any fight with his quick jibes and his dance-floor moves. Entertainment is his game and that's what he delivers. Although quick on his feet, he lacks any real killer punches, leaving him vulnerable to the big men of the ring.

A relative newcomer to the ways of the ring, Nat has made his presence in the competition well and truly felt, both physically and professional. He's a beast of a man with a massive reach that can get through all sorts of defences, despite a distinct lack of punches. With incredible

PROPULSION

There are three types of propulsion that can be picked up in the game. Some are only available on certain levels. Once picked up, they can be deactivated by pressing L1 + R1.

HOVERPODS

Hovering is the fastest way to get around. It also gives you a bird's-eye view of the battlefield as well as negating the effects of terrain. Hovering has almost no benefit on deep water. It also makes you an easier target.

HYDROFLOATER

When travelling in deep water, this Power-Up is a necessity. Driving over water is tougher than on land. Enemy fire can easily capsize your craft. Take too much damage and the Hydrofloater will fail, causing you to sink.

SKIS 'N' TREADS

When driving on tundra or snow, Skis 'N' Treads are essential. The extra traction they give will help you turn faster and climb hills. They do, however, make braking impossible. So if you need to stop, make sure you leave plenty of room.

WEAPONS

BRUISER CANNON

At close range, the cannon is a powerful and accurate weapon. At mid to long distances its shells can be easily avoided. Smaller vehicles are knocked flying if successfully hit.

RICOCHET

↓, ↑, ⇐ + R2

COST: 5 Shells

Fires a blue ball that bounces off cars and terrain, striking up to five times.

BUCKSHOT

↓, ↑, ⇐ + R2

COST: 5 Shells

Unleashes a spread of shells from the cannon. Devastating at close range.

COW PUNCHER

↓, ↑, ⇐ + R2

COST: 2 Shells

Knocks enemy vehicle flying. Useful for getting them off your back

SKY HAMMER MORTAR

The mortar's shells fire straight up, so it's not a good idea to fire them inside a building you have to protect. Due to the slow shot speed, the mortar is very poor at hitting fast-moving vehicles.

Shocker

↓, ↓, ⇐ + R2

COST: 2 Shells

Fires a blue shot that occasionally disables a vehicle's engine.

Crater Maker

↓, ↓, ↑ + R2

COST: 5 Shells

Creates a massive blast on landing, which leaves a crater behind.

Turtle Turnover

↓, ↓, ⇐ + R2

COST: 2 Shells

If this shot hits, the enemy vehicle will bounce skywards and flip over.

INTERCEPTOR MISSILE

Most of the time the homing missiles hit everything you target, although if they are fired in elevated or dense areas, they'll more often than not hit intervening terrain.

Star Burst

↑, ↑, ⇐ + R2

COST: 1-5 Missiles

Launches up to five missiles rapidly at your selected target.

After Burner

↑, ↑, ⇐ + R2

COST: 1 Missile

Causes your vehicle to charge forward over and above top speed.

Halo Decoy

↑, ↑, ↓ + R2

COST: 2 Missiles

Launches a missile which prevents the enemy targeting your vehicle.

BULL'S EYE ROCKETS

The rockets are slow-moving and dumb-fired, so you'll need to be a darned good shot to hit anything with them. They are best used for destroying buildings or other immobile objects.

Red, White & Blue

↑, ↓, ⇐ + R2

COST: 2 Rockets

Fires three unguided rockets simultaneously in one salvo.

Stampede

↑, ↓, ⇐ + R2

COST: 5 Rockets

Rapidly fires five rockets in quick succession.

Road Runner

↑, ↓, ⇐ + R2

COST: 2 Rockets

On striking, this rocket sends the target vehicle spinning wildly out of control.

ROADKILL MINES

Mines do very little damage when activated and are easy to spot due to their garish yellow colour. They do dissuade pursuers though.

Seeker

⇐, ⇐, ⇐ + R2

COST: 2 Mines

Creates a floating mine that seeks out enemy vehicles, rather than sitting and waiting to explode.

Bear Hug

⇐, ⇐, ↓ + R2

COST: 2 Mines

Drops a magnetic mine that sucks in anyone in range, holding them for a few seconds.

Cactus Patch

⇐, ⇐, ↑ + R2

COST: 6 Mines

Drops a flashing red mine that explodes in a shower of mines when activated.

BRIMSTONE BURNER

The Burner sets fire to anything it hits. Buildings and cars both take severe damage from prolonged exposure. It has a very limited range but is useful for scattering enemy cars.

Oil Slick

⇐, ⇐, ⇐ + R2

COST: 5 Shots

Drops a black pool that causes anyone touching it to skid out.

Fire Wall

⇐, ⇐, ↓ + R2

COST: 15 Shots

Drops a line of fire behind your car.

Anyone touching the fire wall is set alight.

Fire Burst

⇐, ⇐, ↑ + R2

COST: 15 Shots

Unleashes a ball of fire that explodes and sets fire to everything in the vicinity.

▼ Choose your weapon and start shooting. You can only carry three guns so pick carefully.

GUIDE

VIGILANTES

SHEILA

CAR:WONDERWAGON
ACCELERATION:348
SPEED:176
ARMOUR:86
TARGET AVOIDANCE:305
SPECIAL WEAPON:TANTRUM GUN

Sheila's car is small, making her very difficult to hit, which is just as well as the Wonderwagon has poor armour. The wagon's small size means it gets knocked around like a paper hat in a thunderstorm. Every hit it takes will send you flying. The best thing about the Wonderwagon is its weapon. The Tantrum Gun is very accurate at close range and packs a massive 50 shot ammo clip. In addition to the damage it does, every fifth shot knocks a weapon off the target vehicle.

JOHN TORQUE

CAR:THUNDERBOLT
ACCELERATION:400
SPEED:344
ARMOUR:182
TARGET AVOIDANCE:104
SPECIAL WEAPON:WHEEL O' FORTUNE

The Thunderbolt is one of the best initial vehicles. It has superior handling and speed, with an ultra-powerful weapon tacked on. The Wheel O' Fortune does a terrific amount of damage, as well producing a random effect on the enemy vehicle. This can range from weapons theft to massive recoil. The length of John's machine makes it easy to target. Superior armour, speed and weapons more than make up for this flaw - besides which, you'll be too busy looking good to notice.

FLYING ALL STAR TRIO

CAR:DAKOTA STUNT CYCLE
ACCELERATION:336
SPEED:204
ARMOUR:50
TARGET AVOIDANCE:348
SPECIAL WEAPON:SOARING GLORY

Just don't get me started on this bike! The best thing about the All Star Trio is their deadly special weapon. The Soaring Glory launches three firework rockets into the air, where they then track and destroy your target. Each rocket has a massive blast radius and it is easy to destroy a vehicle with one or two shots. Unfortunately, the bike is to handling, what water torture is for breathing. It constantly bounces off rocks and very little damage is required to remove it from existence.

HOUSTON

CAR:SAMSON TOW TRUCK
ACCELERATION:310
SPEED:204
ARMOUR:256
TARGET AVOIDANCE:110
SPECIAL WEAPON:TOW HOOK

This is the first one of the Vigilantes to be unlocked. Houston has a top Tow Hook attack, which she uses to drag opponents and catapult them into the air. This is particularly effective on water levels, where the enemy can be thrown to the sharks. The Tow Hook does most damage when dragging the enemy, but can be easily snapped. The Samson Tow Truck has reasonable handling and above-average armour, so you won't have much trouble achieving victory.

CONVOY

CAR:LIVINGSTON TRUCK
ACCELERATION:50
SPEED:148
ARMOUR:400
TARGET AVOIDANCE:62
SPECIAL WEAPON:ROLLING THUNDER

The Livingston Truck is so slow and unmanoeuvrable, so you'll soon become frustrated. The trailer section at the back of the truck should be destroyed at the earliest opportunity. Collecting the Hydrofloater power-up usually does it. After the obscuring trailer has been removed, you can deal some death! With maximum armour at its disposal, the best weapon to use is the truck itself. Ram and crush the opposition using its superior weight and a few blasts from Rolling Thunder.

VIGILANTE MISSIONS

MISSION 1: ARIZONA - METEOR CRATER

A. Collect Two Briefcases
B. Protect Meteor Observatory
C. Destroy Enemy Vehicle
A nice easy first quest, the hardest part is finding the cases. They need to be recovered quickly before the observatory is trashed. The first case is hidden at the observatory itself. Do a quick drive-thru and snatch it up. The second case should be in the same place or behind a donut shop.

the train alive isn't too hard. Just be sure to protect the two bridges that cross the river - if they get destroyed, the train's done for. Try and get the Coyotes to follow you into the factory, where they can be lured into the hot metal and certain death.

MISSION 5: MINNESOTA - NUCLEAR PLANT

A. Collect Three Bombs
B. Protect The Nuclear Plant
C. Scrap The Enemy
The three bombs are all stashed inside the main nuclear plant. One is between the two yellow turbines, the other two are at the sides. Sometimes they appear in the control room. Once you have collected the bombs, get clear of the plant. The generators on the far side cause major damage to any vehicle touching them. Get hold of a Bruiser Cannon and use the Cowpuncher special to knock the enemy into the generators.

MISSION 6: UTAH - WINTER GAMES

A. Collect Three Briefcases And Deliver Them To Lodge
B. Protect Lodge
C. Remove The Enemy From Face Of Earth

Don't bother looking for the Briefcases, the Coyotes are carrying them. Each car will yield a Briefcase when destroyed. All you have to do is eliminate the Coyotes then drop cases at the lodge. Try out some winter events, then visit the award podium to and collect some serious fire-power.

MISSION 2: LOUISIANA - GHASTLY BAYOU

A. Collect Two Briefcases From Tombs
B. Protect Tombs
C. Ace The Coyote

This mission is also a bit of a milk run. The Briefcases are quite easy to find and they're both in the same place: the graveyard. Either drive across the swamp or use the teleporter in the spooky house to reach the archway. From there, search for tombs that have a single black door. Fire a short burst of machine-gun fire at the doors and you should dislodge a Briefcase. If one doesn't appear, cease fire and check another tomb. With both cases secure, get out of the graveyard and head for the other side of the swamp, you don't want the tombstones destroyed in the ensuing battle.

MISSION 3: FLORIDA - LAUNCH SITE

A. Collect Three Bombs
B. Protect And Launch Apollo Rocket
C. Eliminate All Opposition

First of all, go and launch the Apollo rocket so that it cannot be destroyed during the mission. The rocket is on the tracked platform next to the NASA building. Drive straight for the NASA sign. Face the building on the left. Shoot the door and enter the launch centre. The rocket will then move to the launch site. Re-enter the NASA building when the rocket reaches the site, to launch it.

Now you have to go after the three bombs. Drive behind the NASA building and collect the Hydrofloaters. Head across the sea to the small island surrounded by an electric fence. Shoot your way through the deadly electrified wire and pick up all three bombs.

MISSION 7: CALIFORNIA - PACIFIC HARBOUR

A. Collect Three Supply Boxes
B. Protect Barge
C. Perish Enemy Cars

The easiest way to protect the barge is to steer well clear of it. Don't drive round the central dock unless the barge is out to sea. To find the Supply Boxes search all the warehouses. Then check out the container storage yards on the far side of the docks. Sometimes they can be found in the water near the two piers.

MISSION 8: UTAH - WINTER GAMES

A. Collect Five Bombs And Dump Them Into The Sea

B. Protect Oil Silos
C. Exterminate Enemy Cars
The oil silos are very hard to protect as most of the Bombs are located near them. Luckily, all four have to be destroyed for the mission to fail. Your first priority should be to find the Bombs. Most are located on and around the silos. Some are hidden under the long overhead pipes. A few are hidden amongst the rocks.

MISSION 4: PENNSYLVANIA - STEEL MILL

A. Locate Three Supply Boxes
B. Protect Money Train
C. Terminate Enemy Vehicles
Search the factory and the front of the yard to find the first two Supply Boxes. Extend your search to the siding and the coal mounds if you come up empty. The final Supply Box is in one of the train's carriages. Give them a quick burst of gunfire to dislodge it. Keeping

GUIDE

COYOTES

DALLAS 13

CAR:PALOMINO XIII
ACCELERATION:362
SPEED:316
ARMOUR:232
TARGET AVOIDANCE:72
SPECIAL WEAPON:MEGA COLLIDER

The hovering nature of Palomino XIII makes it easy to hit. The cushion of air on which it travels negates terrain effects. It travels as fast on snow and ice as it does on land. The Mega Collider is a laser that produces a lance of fire that burns through anything it touches. It also repels and knocks aside enemy vehicles, caught in the beam. The shot lasts for a few seconds, so you can move the car to adjust your aim. This weapon is particularly effective at destroying objectives.

NINA LOCO

CAR:EL GUERRERO
ACCELERATION:336
SPEED:260
ARMOUR:206
TARGET AVOIDANCE:136
SPECIAL WEAPON:LEMMING MISSILE

Swift and dangerous, the El Guerrero is a car to be reckoned with. While not as good as John Torque's Thunderbolt, the El Guerrero can still run rings around most of the opposition. The Lemming Missile is a pretty cool device. When activated, it will fly skywards then descend on your target at high speed. The blast sends the enemy car flying. The size of Nina's car makes her a pretty easy target, so you should grab a load of Special Weapon crates and fight from a distance.

MOLO

CAR:BLUE BURRO BUS
ACCELERATION:128
SPEED:92
ARMOUR:352
TARGET AVOIDANCE:112
SPECIAL WEAPON:SMOG CHECK

The best tactic to use with the Blue Burro Bus is to maintain a good top speed, then go on a ramming frenzy. The vehicle is so slow, aiming at faster cars is almost impossible. Make sure you pick up plenty of Homing Missiles and guided weapons. The Smog Check is about the most useless weapon you can get. Yes it paralyses the enemy cars caught in its short-range smoke; unfortunately it has a very short range and the bus hasn't the speed to catch a dead fish!

OBAKE

CAR:TSUNAMI
ACCELERATION:284
SPEED:340
ARMOUR:37
TARGET AVOIDANCE:198
SPECIAL WEAPON:RIFT BLADE

The Tsunami has armour you can wrap sandwiches in. Any shot that hits it will do severe damage. Keep the Tsunami on the move at all times, otherwise you'll be bounced around like a rag doll. The Tsunami's Rift Blade is a devastating weapon. When activated, the vehicle charges forward at high speed, slicing enemy cars in twain. This causes severe damage. When charging forward, the Tsunami is immune to gunfire. The Rift Blade also enables you to make a quick getaway.

LORD CLYDE

CAR:EXCELSIOR STRETCH LIMO
ACCELERATION:184
SPEED:156
ARMOUR:298
TARGET AVOIDANCE:246
SPECIAL WEAPON:CHAIN LIGHTNING

The stretch Limo is a big target. Rockets and unguided special weapons will have a field day against this monster. It is also very difficult to manoeuvre round tight corners and through narrow gaps. The Chain Lightning special is devastating at close range. Any car that gets close to the Limo is electrocuted and hurled into the air by its power. The Limo has a reasonable top speed and good armour, so getting close to the enemy shouldn't be a problem.

COYOTE MISSIONS

MISSION 1:

ARIZONA - METEOR CRATER

A. Locate Three Bombs
B. Destroy Gas Station
C. Eradicate Enemy
Search for the bombs first. Check behind the donut shops and in the meteor crater itself. If you still can't find them, check out the observatory, exterior and interior. When all three bombs have been acquired, search for a gas station and blow it away. You only need to take out one station to complete the mission objective.

MISSION 2:

UTAH - WINTER GAMES

A. Collect Four Briefcases
B. Destroy Lodge
C. Crush All Enemy
The briefcases can usually be found on the events, such as the ski jump or bobsledding. The lodge balcony should be searched next, then the award podiums. If all else fails, check out the back of the chalets or ski lifts. Once the cases have been removed, blast the lodge from existence.

MISSION 3:

CALIFORNIA - PACIFIC HARBOUR

A. Collect Four Supply Boxes
B. Destroy Container Crates
C. Mollify Enemy
Your first two objectives occur in roughly the same place. Blast the orange container crates at either end of the dock. You need to destroy at least eight to complete objective B. In amongst the crates you should find one or two of the supply boxes. If not, then check out the warehouses surrounding the dock. If you still come up short, widen your search to include the water and the lighthouse.

MISSION 4:

ALASKA - ALASKAN PIPELINE

A. Collect And Drop Four Oil Cans Around Refinery
B. Destroy Refinery
C. Vaporise Enemy Cars
Make finding the Oil Cans your first priority. As the refinery gets demolished, they become harder to reach. Most of the cans will be located on top of the oil silos. Drive up the ramps or through the pipes to get on top of them. Then take to the sea to stock up on special weapons and continue your search there. If this proves fruitless, check out the rocks surrounding the pipeline. Once all the cans are in your possession, take them to the main refinery building (the place where all the pipes connect) and drop them there. Then proceed to wipe the refinery from the map.

MISSION 5:

MINNESOTA - NUCLEAR PLANT

A. Collect Five Bombs And Deliver Them To Turbine Plant
B. Ace The Nuclear Reactors

C. Make A Milkshake Out Of All Enemy Cars

Go for the nuclear reactors first. Collect a Shield and use Rockets to total them. Once you see the reactors grow white, disappear fast unless you want a half-damage headache. Repair your armour after nailing the reactors. Begin your search for the five Bombs in the container area behind the reactors. There are usually four here, if you're in luck. Search the square pools at each end of the drainage ditch to get the last one. With all the Bombs in your possession, travel to the main turbine building and drop them all.

MISSION 6:

LOUISIANA - GHASTLY BAYOU

A. Collect Five Briefcases And Stash Them In Large Tomb
B. Destroy Sugar Mills
C. Retire Enemy Cars
Destroy the sugar mills first. There are four to the left of the main house. They sometimes yield weapons when shot. Don't stick around in the sugar fields as you're liable to sink. Make for the piers next: two or three Briefcases are located thereabouts. The Briefcases in the swamp are too high to be reached normally. You'll have to open the floodgates at the edge of the swamp. Collect a Hydrofloater power-up to get them when the water rises.

MISSION 7:

FLORIDA - LAUNCH SITE

A. Locate Six Fuel Cans
B. Destroy Rocket Transport
C. Dust Enemy Cars
The Fuel cans can be found on the island, ringed by an electric fence. There are usually two or three there. Search the hangar containing the space shuttle for another two Cans. Check out the inside of the NASA centre to see if any are stashed there. Finally, drive through the rocks next to the launch pad to find the last couple of Cans. Tool up with weapons from the lookout post. Then eliminate the transport holding the rocket.

MISSION 8:

PENNSYLVANIA - STEEL MILL

A. Rob Train And Hide Cash Near Long Bridge
B. Destroy Mill Buildings
C. Liquefy Enemy Cars
Charge forwards and shoot the train's engine. Destroy it and all the Briefcases will drop out. Drive round and collect them all. Make for the long bridge. Drive along it and drop off the cases. You can then turn your attention to the mill buildings. The best way to take them out is to just drive round inside. The attacking Vigilantes will obligingly fire at you, hitting the buildings in the process. Knock out both the steel bar foundry and the smelting works.

DRIFTERS

ASTRONAUT BOB O

CAR:	MOON TREKKER
ACCELERATION:	322
SPEED:	64
ARMOUR:	134
TARGET AVOIDANCE:	308
SPECIAL WEAPON:	COLLECTOR

All-terrain handling makes the Moon Trekker very adept at collecting items. It can also outmanoeuvre most other cars, which enables it to bring the Collector into play. The Collector grabs and repeatedly crushes enemy cars. Whilst it is doing so, the machine gun can be fired to cause extra damage to your enemy. The slow speed of the Moon Trekker makes it an easy target for dumb-fired or special weapons and its armour won't be able to take much abuse from either of these.

GARBAGE MAN

CAR:	GRUBB DUAL LOADER
ACCELERATION:	180
SPEED:	50
ARMOUR:	376
TARGET AVOIDANCE:	78
SPECIAL WEAPON:	COMPACTOR

The Grubb Dual Loader handles like a brick on wheels. It has a huge turning circle and a top speed to cry over. You won't be avoiding much in this hulk which is why it has high armour. The Compactor special weapon is very effective. Simply ram another vehicle whilst the weapon is active and they will be dumped into the garbage grinder for maximum damage. Fast-moving vehicles are hard to hit. Use magnetic mines to paralyse them, before you close in for the kill.

AGENT R CHASE

CAR:	CHRONO STINGER
ACCELERATION:	374
SPEED:	330
ARMOUR:	98
TARGET AVOIDANCE:	224
SPECIAL WEAPON:	HARD TIME

The Chrono Stinger has great handling, but poor armour. As long as you stay on the move you'll probably manage to stay ahead of most other cars. The Hard Time special weapon is the most useless in the entire game. It's hard to aim but it does paralyse the enemy. Make sure you have a Mortar special or Bruiser Cannon, with maximum ammo, selected. Then use a supercharged shot to deliver a punishing strike on the immobile enemy. Agent Chase is the best of the initial Drifters.

CHASSEY BLUE

CAR:	VERTIGO
ACCELERATION:	278
SPEED:	295
ARMOUR:	148
TARGET AVOIDANCE:	91
SPECIAL WEAPON:	STAR POWER

The Vertigo is on par with John Torque's Thunderbolt. Superb speed and handling make it one of the best things on four wheels. Her Star Power orbital death ray is pretty effective at mincing groups of enemies. Once locked on, the satellite is lethal, pursuing the target vehicle with its powerful laser beam. If the enemy cars are clustered together, it will burn through them all. Chassey becomes available when you complete the game with all of the initially selectable Drifters.

PADRE DESTINO

CAR:	GOLIATH HALF TRACK
ACCELERATION:	156
SPEED:	151
ARMOUR:	295
TARGET AVOIDANCE:	188
SPECIAL WEAPON:	HADES GALE

Padre Destino becomes selectable when you complete the game with Chassey Blue. His Goliath Half Track is instantly recognisable as a machine of destruction. With thick armour plate and reasonable top speed, the Half Track can quickly close with the enemy and deliver a crushing attack with its tracks. Padre's Hades Gale is one of the best special attacks. The Half Track vanishes when activated, then reappears with a scream of souls right under the target vehicle.

DRIFTER MISSIONS

MISSION 1: ARIZONA - METEOR CRATER

A. Collect Two Fuel Cans
B. Evade Police
C. Trash The Enemy
First things first, listen for the siren and keep an eye out for the cop car. If it makes contact with your vehicle you'll instantly fail objective B. As for the Petrol Canisters, your best bet is to check out the petrol stations, or behind the donut shops. Occasionally they can also be found in the cinema or the observatory.

MISSION 2: CALIFORNIA - PACIFIC HARBOUR

A. Locate Three Supply Boxes
B. Force Cargo Truck to Stop On Bridge
C. Ace All Enemy cars
First of all, stop the truck on the bridge. Wait for the container truck to load up and drive onto the suspension bridge, then give it a quick burst with your machine gun to make it stop. Next you must search for the Supply Boxes. These are usually located in the warehouses or near the container crates. Sometimes they can be found on the water. Once the first two objectives have been met, nail the single enemy.

MISSION 3: ALASKA - PIPELINE

A. Find Three Oil Containers, Deliver Them To Silos
B. Break Up Three Amassing Icebergs
C. Obliterate All Enemy cars
Go for the easiest target first. Drive to the water's edge and grab a Hydrofloater power-up. Cruise over to the oil rig and wait for the first iceberg to appear. Make cubes out of it using your machine gun. Circle the area and wait for the next two 'bergs to appear. Shoot them both to achieve objective B. Finding the Oil Containers is a bit tricky - with all the metal work lying around they can be hard to spot. Drive round the rocky outskirts of the area: most of the containers can be found on the ledges there. Once you have them all, drive onto the oil silos and drop them off. Each silo can hold one oil container.

MISSION 4: MINNESOTA - NUCLEAR PLANT

A. Find Four Briefcases, Drop Them In Nuclear Crates
B. Avoid Radioactive Contamination
C. Retire All Enemy cars
Begin your search for the Briefcases inside the main turbine plant. From there, check out the streets surrounding the complex, then the power generators. When you have all four of them, make for the white containers in front of the factory on the hill. Drop the cases here to complete objective A. To avoid becoming radioactive, don't destroy anything toxic-looking (such as yellow barrels and glowing stuff; it is a big hint of toxicity).

MISSION 5: UTAH - WINTER GAMES

A. Collect Four Supply Boxes And Deliver To Cable Cars
B. Beat All Three Event Records
C. Retire All Enemy cars
The Supply Boxes are mostly located on and around the three events. Sometimes they appear by the chalets or the lodge. Grab all four boxes then head for the cable car station and drop them off. To break the long jump record, tool up with some Homing Missiles. Use the turbo special to get some air and drive through the gates at the end. You can do the same down the bobsled run. Make sure you go through the gates at the end of the run. If you hear a cheer, you've broken the record.

MISSION 6: LOUISIANA - GHASTLY BAYOU

A. Locate Six Bombs
B. Trap The Alligator
C. Mosh All Enemy Cars
Target the bombs first. Check out the sugar field near the mills. There are a few bombs hidden between the sugar canes. Then travel over to the piers near the floodgates to find a few more. Raise the water level to get the last few bombs hidden in the swamp itself. To trap the alligator, drive round near the ghost, next to the cage. Pretty soon the alligator will show up. Keep circling the area and it'll eventually touch the ghost and get trapped.

MISSION 7: PENNSYLVANIA - STEEL MILL

A. Collect And Deliver Five Fuel Cans To The Outside Furnaces
B. Stop The Train At Service Dock
C. Crush All Enemy Cars
The Fuel Cans are well hidden around the steel mill. Check under the bridges and around the edges of the map. Most of the Cans can be found near the mounds of coal to the rear of the plant. Once they are in your possession, concentrate on getting the train to the siding. You can use the red switches to manipulate the tracks. Before you start moving the train towards the siding, you must first destroy the two carriages blocking the route, otherwise the train will explode.

MISSION 8: FLORIDA - LAUNCH SITE

A. Collect And Deliver Five Supply boxes To NASA Building
B. Force Enemies Into Wind Tunnels
C. Annihilate All Enemy Cars
After the last mission you can relax and take this easy. Luring the enemies into the wind tunnel shouldn't be a problem. Simply shoot off the front of the tunnel and wait for the enemy to show up. As they get close to you, drive through the tunnel and they will follow in. To get the Supply Boxes take a ride in the rocket. Collect the boxes on the way down to earth. Drop all five of them at the NASA building, then you can turn your attention to the enemy cars.

VIGILANTE 8: 2ND OFFENSE

GUIDE

ARIZONA > METEOR CRATER

The arid Arizona landscape is the setting for the first fighting arena. There are many gullies that can be used to ambush your foes. The rock bluffs and cliffs also provide a vantage point for those that like to use sniper tactics.

TOP TIP

Use the manual lock on to target the closest enemy cars. Your weapons are less accurate at long range.

Stick this in your tea and dunk it! Ace the donut shop and watch the big ring roll. It will annihilate anything in its path with sugary goodness.

Want a short cut? Need to get out of danger fast? Well drive into the mine or the observatory and you will be boosted to a random location.

Need a quick fix-up and oil change? Well park yourself by the gas pumps and a friendly mechanic will slowly restore your energy, while you wait.

The Sheriff is lying in wait next to the donut shop. If you break the speed limit he'll be all over you like a rash. A couple of missiles should dissuade him though!

Total the Observatory and a massive meteorite will land in the crater. Destroy this to activate the invasion of the killer bugs and relive those 'Starship Troopers' moments.

Hang around the meteor crater for too long and you'll get caught in a shower of rocks. Put your pedal to the metal and stay one jump ahead of this cosmic stoning.

DAVE CULTSMEN

CAR:XANADU RV
ACCELERATION:100
SPEED:121
ARMOUR:341
TARGET AVOIDANCE: ..201
SPECIAL WEAPON:UFO

Invasion
The RV is very sluggish and difficult to handle. Its large size makes it a sitting target for enemy fire. On the plus side, having a large mass makes it ideal for ramming. The RV can beat most other vehicles in this fashion. The UFO Invasion unleashes a horde of miniature saucers that attack enemy vehicles. This is the most powerful special weapon in the game and causes substantial damage to even the most armoured of vehicles. The RV should stick to fighting on close terrain, where it can't be shot at from a distance.

GUIDE

LOUISIANA > GHASTLY BAYOU

TOP TIP

Take the high ground whenever possible. Your weapon range is greatly increased, and accuracy improved, when firing from above.

TOP TIP

Most buildings explode violently when shot. If an enemy is being a hiding bandit, target his cover to make him move.

DUSTY EARTH

CAR: WAPITI 4WD
ACCELERATION: 197
SPEED: 242
ARMOUR: 178
TARGET AVOIDANCE: 140
SPECIAL WEAPON: HAWK

..... THAT SETTLES

The Wapiti 4WD is a good all-round vehicle. It travels equally well on rugged or icy terrain and its hill climbing ability is second to none.

Dusty is best used on snowy or desert terrain, where his four-wheel drive can be used to outmanoeuvre the enemy. Dusty possesses the most infuriating special weapon in the game. Hawk That Settles creates a vortex that lifts up and damages the enemy car, moving them around the map. It does little damage, but can be very disorientating.

The fetid swamplands are tricky to negotiate. Before you can say "Gentle Ben" you've probably been sucked under. The spirits of the dead don't rest easy. They will teleport, attack and even steal from you, if their rest is disturbed.

The 'gator is a mite ornery and will take a dislike to anything in his part of the swamp. If you're in the water you're Alligator chowder, so don't float for too long.

The 'gator cage can be activated by driving into the ghost. When caught in the cage, the 'gator will spit out weapons and armour. If a car gets caught in the cage, it takes damage.

Shoot the wheels on the floodgates in order to open them. Once they are both fully open, the water level inside will rise, therefore flooding the swamp.

Don't stick around in the sugar field, even if you do have a sweet tooth. The earth is so soft that it will bog down your vehicle, causing a load of damage.

If the house or the large tomb is possessed by a spirit, they will teleport you to the other end of the swamp. Be wary: the spirit usually exacts a price for this service!

Take care when driving in the cemetery. If you accidentally trash one of the tombs, the vengeful ghost will react angrily to the desecration and attack you.

VIGILANTE 8: 2ND OFFENSE

GUIDE

FLORIDA > LAUNCH SITE

The sun-baked shores of Florida beach, provide a good line of sight for your long-range weapons. Cruise around the surf to collect tons of weapons, then return to the sands and do battle. Be on the lookout for the military: they don't take kindly to compromised security.

A Just when you thought it safe to go back into the water and have a surf, in come the sharks! Stay fast and don't annoy them otherwise you'll be fish food.

B The rocket engines flare periodically – anything behind them will be cooked. Shoot their supports and they'll fly skywards, returning to earth with explosive results.

C The two wind tunnels occasionally run tests. If you witness stuff being sucked in, steer clear unless you wish to meet the fan blades up close!

D Cruise through the tunnel which is at the rear of the rocket, but only when the green light is showing. You will then be taken to the stars and beyond.

E Base security is tighter than a pair of PVC underpants. The guard towers will fire machine guns at any car passing too close. If you try to drive through the fences you're in for a shock!

F To launch the rocket, enter the NASA centre to start it moving towards the launch pad. Once it's there, re-enter the centre to send the rocket to the moon.

TOP TIP

SPECIAL WEAPON: ..DISCO BALL
..... BALL
Disco inferno! The Marathon sure likes an audience. Whilst it does not have the armour or speed to give the edge over the opposition, the Disco Ball special can be used to devastating effect. Drop a few magnetic mines and wait for the enemy to activate them, then cruise in and deliver the Disco Ball at close range. Behold as a large chunk of enemy energy is wiped off. Boogie is a hit and run specialist. Get close and use your Disco Ball, then fade fast before your thin armour gets wasted.

PENNSYLVANIA > STEEL MILL

Life on the rust belt can be cheap, especially with the Coyotes knocking about. The debris-strewn steel mill is a fine battleground. Loads of cover and weapons aplenty make this arena good for the hit and run driver.

If the train keeps getting in your way, shoot the red signals to change the track. You can also drive into the tunnel to be teleported across the mill.

Low on weapons and trapped inside the smelting room? Well shoot the boilers in order to unleash a torrent of hot metal upon the enemy.

The rolls of steel on the hill make for choice targets. Hit them with gunfire and they will roll along, crushing anything in their path.

Drive to either window on the second floor of the smelting room. The magnetic crane will lift your car off the ledge and move it to the equipment stash.

Steer clear of the steel bar plant. The red-hot lumps of metal will immolate your car at the slightest touch. Plant a magnetic mine on the conveyor belt to trap enemies here.

Coal mounds are particularly stupid places to park which is great if you see anyone waiting up there. Shoot the coal in order to set it alight and burn anyone on top of the pile.

Low on weapons? Badly damaged? Time for ramming speed! Charge towards enemy cars from the side, to turn them over and go out in style.

TOP TIP

If you are low on energy, hide in close terrain (buildings and trees) and use the mortar to attack the enemy from a distance.

Down at the docks it's business as usual, despite the fire-fight. Express delivery and storage combine to aid you. Check out the delivery routes to stock up on stuff. Take care to stay out of the truckers' way or you're in for some pain.

The depot provides quick and easy access to the ocean. Just drive through any of the three doors to take advantage of the short cut and be moved around the map.

The lighthouse is where to go if you've taken a beating. Enter the base of the house and hold accelerate. You'll then hover over to the depot roof and get the armour there.

Cranes are there to help you out. Stick next to the large cranes if you want them to take you across the water. The small ones will rescue you if you're in the drink.

Shoot the orange containers in order to release hidden weapons and power-ups. Don't get too close, as they have a habit of exploding violently.

Hitch a ride on the barge and take a tour around the docks. If you stay on it too long, you will probably sink when an enemy uses it as target practice.

Pull in at the weigh station and 'weight' (ooooh! *Beano*-style pun!) for the light to turn green and your armour will slowly be restored.

GUIDE

UTAH > WINTER GAMES

It snow joke(another pun!) fighting on ice. Traction is very limited and you'll be an easy target if you struggle to climb the hill. Get some Skis 'N' Treads as soon as possible. This will give you a fighting chance. The top of the hill makes a good place to snipe from.

A Smash open the doors to the cable car. Then drive inside and hitch a ride up the slopes. There are many special weapons that you can pick up in the car.

B The ski lift is the quickest way to travel on these slopes, it will get you up the hill at lightning speed. Drive your car onto a hook and enjoy the ride.

C Once on the bobsled run, there's no chance to back out. This icy route is one-way only. If you manage to stay on the course you'll collect big prizes when you reach the bottom.

D Pass through the gates on the downhill ski run. Get through them all, then visit the winners podium at the bottom of the hill for some prizes.

E Blow open the door and enter the base of the jump. Use a turbo special to do an 'Eddy the Eagle Edwards' off the end of the jump. But try and land with more grace.

F Blast the lodge fence and go through the door. You can now drive around on the second-floor balcony to collect the weapon that are lying around.

TOP TIP

Check out the fighting terrain beforehand. Learn where all the special weapons are and you won't have much trouble defeating the enemy.

TOP TIP

If you catch fire, dunk yourself in the nearest pool of water. Fire continuously damages your vehicle and lasts for ages.

MINNESOTA > NUCLEAR PLANT

TOP TIP

Most objects and structures produce weapons when destroyed. If a level looks barren, start blowing things up.

KEY

- Quest Mode Item
- Propulsion Upgrade
- Power-Up
- Weapon Crate
- Armour Repair
- Special Weapon

Possibly the most insane place to have an all-out gun battle is the middle of a nuclear reactor, but that's what you get when you visit Minnesota. Contamination and electrocution lurk round every corner.

Head for the control balcony in the turbine plant. Ram the computer when the light is green to produce armour – if you ram it when red, anyone near the turbines will be electrocuted.

See those yellow barrels that the forklift truck is carrying? Well steer clear of them as the slightest touch will contaminate your vehicle.

At all costs stay away from the deadly turbine blades. If your vehicle happens to get sucked in, it will cause huge amounts of damage.

Shoot open the blast doors to the nuclear reactors and destroy the cores to produce a subatomic explosion. Make sure you have a shield unless you want to glow in the dark.

The tunnels at the edge of the map provide access to the heavy water vents. These fenced-off vents often contain special weapons and armour.

When driving near to the transformers, be on the lookout for the electrical sparks. If you stray too close to the transformers you are going to be in trouble.

VIGILANTE 8: 2ND OFFENSE

GUIDE

ALASKA > ALASKAN PIPELINE

You'll have to blow up plenty of stuff to keep warm in this climate. Take a journey through the wasteland and collect weapons from the rocks. You may want to nail a few oil silos just to heat things up a little.

A After sliding through oil, enemy cars leave a black trail. Shoot this trail to set the oily car afire, then sit back and toast some marshmallows on the warm glow.

B Drive up the ramps and go into the pipeline. From here your car will then be transported to a random pipe location on the map and spat out.

C If you take to the sea, be careful not to frighten the fish. The killer whales (okay, they're mammals) have a nasty habit of tearing fast-moving cars to shreds.

D Stay out of the oil pools. They slow down your vehicle and will choke the engine. The oil patches can also be set alight by gunfire, make you a sitting duck to enemies.

E Iceberg dead ahead! The icebergs are able to sink any unsuspecting craft – even those you think are indestructible. Use your machine gun to break them up.

F Check out the oil rig for some decent weapons. Shoot away its struts for a spectacular explosion. It will leave more pick-ups when it has been destroyed.

TOP TIP

During Quest Mode, the mission will finish after all the enemy cars are destroyed. Be certain to have completed the first two objectives before this happens.

TOP TIP

Take to the seas as much as possible. The CPU cars rarely follow – and even if they do, hitting with weapons is nigh impossible on the rolling waves.

2nd Hand Games

In addition to our huge range of new games, Gameplay also stocks pre-owned games and we intend to ensure that these are of the highest quality that you will find anywhere.

✓ All games must pass a 10 part examination before being resold to ensure nearly-new quality.
✓ All 2nd hand games are guaranteed for 3 months.

This is how you can sell us a game:

1. Your game must be in nearly new condition. We cannot accept anything with torn or stained manuals or damaged boxes and you must clean the CD before sending it to us. Remember that all games are tested when we receive them. If your game doesn't work, we will not buy it and you may have to pay a £4.00 charge to get it back.
2. You must ring us before sending your game in as prices for 2nd hand games can change quite regularly. You will be given an authorisation number which will be valid for one week.
3. You will receive a credit for the agreed amount which you may use against other games or accessories, either new or used.

If you would like to buy a 2nd hand game, simply ring sales for the current price. If your choice is not in stock, you may book a copy and it will be sent as soon as one becomes available. Remember, we do not charge your card until your game is sent!

ALL PRICES LISTED IN THIS ADVERT ARE FOR NEW GAMES ONLY - PLEASE RING IF YOU WOULD LIKE 2ND HAND PRICES.

SHAOLIN

GUIDE

Victory is twice itself when nothing is lost.

シアーウリン
SHAOLIN

Originated by Chinese monks, this is the basic form of Kung Fu from which all other styles developed. In real-life it involves weapons training, but in the game is purely unarmed combat.

FIGHTING ARTS

Unlike other beat-'em-ups, rather than each character having different moves, you can choose from one of six fighting styles.

KEY:

(Front)

Facing the front of the opponent. To perform throws from the front, the opponent needs to be blocking.

(Left/Right)

Roll/slide round to the left/right of the opponent to perform the move.

NOTES:

- All moves are shown for a right-facing fighter - if facing left, reverse directions (including up/down).
- The Extra Arts need to be learned in RPG mode, but these moves are all available in Versus battles.
- Timing is crucial for executing successful combos - don't simply hit the buttons as fast as possible.

GUIDE

It is not the art that kills, it is the greed and stupidity of men.

タイー ナー ナウアーン T'AI CHI CHUAN

This combat style is different to most others. Instead of deflecting or resisting an attack, the idea is to get out of the way and redirect it, using the opponent's strength against him.

ACT I – the wharf

After talking to Carlotta, leave the office and make for the Wharf. Ignore the sailor to the left of the wharf and head up the gangplank. Talk to Mr Scoplett, the first mate. Ask him about any passengers that may have been on board. Refer to your notepad and press the button to ask him about information on it. Get more details about the Mysterious Passengers. Then ask about the Milka. Eventually Scoplett will tell you that the Captain is in the Café Ankh. Leave the boat and head for the café.

café ankh

As you approach the café, turn right and examine the cart. Wait for the golem to return to the cellar, then steal the Crowbar from the back of the cart. Enter the café and speak with Samael. Enter the booth at the top left of the screen. Speak to the captain. Eventually he won't let you on the Milka. Return to Samael and speak to Nobby on the central table. Ask him about things. Then select Vines as a topic. After that select the Mysterious Passengers from your notebook. Talk to him about the Milka to learn about the murders. Then leave the café and make for the Wharf.

the milka

Now that the sailor is gone, select the Crowbar from your inventory and use it on the crates to the left of the boat. Eventually you'll find yourself inside the Milka. Examine the Label. Pocket it, then leave the hold via the south exit. From the deck above, take the left-hand door to enter the passenger cabins. Search the bottom bunk to discover a Scrap Of Cardboard. Go back to the deck outside. Leap into the water.

pseudopolis yard

Make your merry way to Pseudopolis Yard. Walk up to the front desk and speak to Nobby. Select your notebook and talk to him about the murders. Then ask about the Mysterious Passengers. Nobby will then furnish you with the location of the Octarine Parrot. Leave the yard and talk to Malachite the troll. He'll ask you to find Therma, she is conveniently located at the Octarine Parrot.

octarine parrot

Wait for the troll on the stage to stop singing (it's a long wait!) Walk up to her and ask about Malachite and Therma. This will add Madame Lodestone to your clue list and Rhodan's Workshop to the city map. Go back to Pseudopolis Yard. Ask Nobby about Madame Lodestone. He'll then give you the location of the Selaachi Mausoleum. Search all the tombs there and then head for Café Ankh.

Return to your office yet again. Collect the Invitation from the foot of the office door, then make your way to Von Uberwald Mansion.

uberwald mansion

Enter the mansion. Talk to the butler and show him the Invitation, from your inventory. He'll bog off to find Carlotta: in the meantime examine the portrait above the main door. The lady will appear. Talk to her about Ulrich, then ask about the Selaachi Mausoleum. Whilst Carlotta is getting changed, have a few words with the Count. Talk to him about the Conservatory.

rhodan's workshop

Take Carlotta to the mausoleum and examine the tomb she finds. Go back to the mansion. Have a few words with sarcastic butler. Ask him about Count Von Uberwald. Head into the mansion and talk to the Count. Question him about the missing companion. Take the Iconograph. Travel to Rhodan's Workshop. Walk to the end of the workshop and break the bad news to Malachite. Take him to the mausoleum. Examine the coffin and steal the Diamond Teeth. Collect the Grappling Hook from Malachite, then walk to Pier 5.

finis

Walk past the nightwatchman and along the pier. Select the Grappling Hook and use it on the skylight. Once on the roof, use Crowbar to open skylight. Drop down to the warehouse. In the shadows, to the left of the screen, is a Matchbook. Move the cursor around the dark area until you find it. Select your inventory and combine the Matchbook with the Torn Card. Select the skylight again and leave the pier. Make for the Octarine Parrot. Talk to Mankin. Ask him if he knows where Mundy is. Show him the Matchbook, then ask him about lies. What's this? We're not sure, but we suspect there are some Arsenal fans amongst the game programmers!

SHOOTING PRACTICE

When near the six-yard box, it's usually best just to tap ☐ and direct the shot into the corner – use power and you'll probably balloon it over the bar.

Further out from goal, the key aspect is stopping the power meter in the right place by releasing ☐. There are two markers on the meter: the nearer you stop it to either one, the more powerful your shot will be. For a low shot, stop it near the first marker; for a high one, stop it near the second marker.

Aftertouch can be applied to your shot by holding R1 and using the D-pad to swerve the flight of the ball. This is particularly useful for free kicks.

GUIDE

HOW TO SCORE

One of the hardest aspects of the game is learning how to score. Here are the best methods we've found.

GOAL 1: CROSS & HEADER

A classic technique, just make sure you apply swerve, otherwise the ball will go straight to the goalie.

1. Sprinting down the wing towards the byline, deliver the cross.

2. Hold R1 and use the D-pad to swerve it away from the keeper.

3. If he misses it, hit ☐ to knock a header into the unguarded net.

GOAL 2: SHORT THROUGH BALL

The best way to thread a through-ball past defenders is to aim it diagonally and preferably first time.

1. Playing a simple pass from midfield, hold R1 + X before he receives it.

2. He'll play a first-time through-ball, hopefully getting past the defence.

3. Getting the striker onto it, tap ☐ and use D-pad to slot it into the corner.

GOAL 3: LONG THROUGH BALL

This is a more ambitious version from further back, relying on a flat defence playing quite high up the pitch.

1. From near halfway, hold R1 + X to aim a long through ball diagonally.

2. If you time and aim it right, you can thread it past the flat back four.

3. Make your striker sprint onto it for a one on one with the keeper.

GOAL 4: DRIBBLE PAST

The most direct and basic route past the defence is by dribbling. Try using a step-over or knock-ahead and sprint.

1. As the defender approaches for the tackle, hold and release .

2. The ball is knocked through: batter to sprint onto it.

3. One on one with the keeper, whack the shot into the onion bag.

GOAL 5: GIVE & GO

A good way to get past tough CPU defences. Just ensure your original player isn't offside for the return pass.

1. Pass the ball, then immediately hold X to retain control of the passer.

2. Run him into space between defenders, then release X to return the pass to him.

3. Sprint into the gap, past the defence, for a clear shot on goal.

TOP TEN TIPS

Turn the radar option on and scale it up to maximum to help you see where all your teammates are.

It's normally best to use the block tackle to win back the ball, although the other tackles have a longer range.

Don't overuse the slide tackle ☐ - if mistimed, you'll almost certainly get booked or sent off.

If you get a defender sent off, reconfigure your team to replace him, so there's no hole in your defence.

If an opposing player gets one on one with your keeper, hold R2 to rush out and then dive at the ball.

To clear the ball when under pressure in defence, hit the ☐ button to hoof it up the pitch.

Hold R1 and use the D-pad to swerve crosses and corners outwards to avoid them going straight to the goalie.

For successful headers, quickly hold the ☐ or X button, then release it just as the ball comes down.

Diving to try to get a free kick or penalty isn't usually a good idea - if the ref catches you, it's a booking.

Save your position after every Tournament/League match - if you lose a game, reload your old position to replay it!

PSX Tensions

joypads memory cards sound systems light guns hardware software gizmos

In an **excellent month** for PlayStation add-ons, we **test-drive** two great new **steering wheels** and **aim for the top** with a unique **laser-targeting light gun**.

FALCON LIGHT GUN

SUPPLIED BY: FIRE
PRICE: £29.99

At last, a meaningful innovation in light guns! The Falcon is the first one to incorporate a laser targeting system. This makes it much easier to see where you're aiming on screen. In fact, it's such an amazing improvement, it's a wonder no-one's designed a gun like this before.

In addition to the laser (which can be turned off), the Falcon has all the usual features: Guncon compatibility, auto-fire, and auto-reload, plus a plug-in foot pedal for ducking/reloading. Plugging in the AC power adaptor, you also get a nice Kickback recoil as the top of the gun slides back and forth. All in all, this is undoubtedly the best light gun on the market.

Overall: ★★★★★

TOPDRIVE REACTOR

SUPPLIED BY: LOGIC 3
PRICE: £29.99

Yes, we reviewed this a couple of months back, but it seems we missed an important feature. The Jogcon-style jogging feedback of the mini-wheel actually works on any Dual Shock compatible game, rather than just Ridge Racer 4. This is a nice feature which increases the Reactor's appeal. We tried it out on F1 99 and the jogging effect came into play when skidding or crashing. The high vibration setting was a bit too much, enough to put you off your steering, but the lower setting was better.

TRUE 8MB MEMORY CARD

SUPPLIED BY: FIRE
PRICE: £19.99

Long-time PlayStation owners may remember the compressed memory cards of old, which used data compression techniques to cram in more game saves. Unfortunately, they quickly earned a bad reputation as they had a habit of wiping your previous saves every so often!

Not so the new range of True Memory Cards from Fire, which feature 100% flash memory for complete reliability. The 8Mb version is equivalent to eight standard memory cards, enabling you to save 120 blocks, and is therefore good value for money if you need to save a lot of game positions - don't we all?

It only takes a thousandth of a second to switch between the card's 15-block pages and, as it uses true memory, it's guaranteed not to lose any of your saves in the process. It even has an 'auto page changer' feature which will enable future versions of the Fire Xplorer cartridge (and hopefully also new games) to change the page automatically.

The True Memory Cards are also available in 2Mb, 4Mb, and 16Mb sizes. Uniquely, the 8Mb and 16Mb cards are upgradeable to 16Mb and 32Mb (480 slots!): just send them back to Fire with the relevant upgrade fee.

TOP DRIVE PODIUM

TOP DRIVE PODIUM

SUPPLIED BY: LOGIC 3
PRICE: £16.99

If clamping a steering wheel to granny's antique table isn't a good idea, but holding it on your lap is uncomfortable, this is just what you need: a special laptop table for steering wheels! Just sit on the base of the Podium, adjust the table's height and tilt, plonk your wheel on it, and away you go. It's also handy for TV dinners!

MC2 RACING WHEEL

SUPPLIED BY: MAD CATZ
PRICE: £59.99

When it comes to steering wheels, Mad Catz are the masters, and their new improved model doesn't disappoint. For starters, it's the most solid unit you could imagine, with a huge sturdy base that makes for excellent tabletop stability. Alternatively, you can use the retractable leg straps on the base of the wheel unit for added comfort when using the wheel on your lap.

The level of luxury is unsurpassed by any other PlayStation wheel. The leather-style grips on the wheel give a realistic feel, along with the springiness as you turn it. Even the foot-plate unit is superb, with tilting pedals for comfort and a realistic level of resistance as you push down on them - yes, they push down, not up like on most other units. The wheel includes all the features you'd expect, including Negcon, analog and digital modes. Naturally, there's Dual Shock compatibility for some nice rumble. All the buttons are there and for once they're all easily programmable, so you can alter them to suit any software. You also get two-way paddle switches, which can be pushed or pulled for different effects.

Best of all, the new improved wheel boasts the unique AccuDrive Calibration System. As well as giving a neat visual LED display of your acceleration level during play, this enables you to fine-tune the steering performance to a tee. Not only can you adjust the sensitivity by setting the maximum turning range, you can also alter the deadband: the neutral position where your car steers straight. According to Mad Catz, to combat the poor auto-centring of some other wheels, most games have a huge deadband for analog mode - which normally means you have to turn the wheel a fair bit before you even start steering on screen. To get around this, the MC2 has the unique feature of a negative deadband setting. This counteracts the huge deadband, resulting in a noticeably sharper response when steering slightly.

Quite simply, the MC2 is the mutt's nuts. If you've got the cash, this is definitely the wheel to splash out on.

Overall: ★★★★★

MC2 RACING WHEEL

TOPDRIVE GTO

SUPPLIED BY: LOGIC 3
PRICE: £24.99

This cute little wheel earns top marks for trendy design. Its small size (a mere 8 inches in diameter) also makes it less cumbersome and brings down the cost to under £25 - surely making it the cheapest steering wheel on the market.

Okay, so you don't get any foot pedals (although you can buy some to plug in), but the number of features on the GTO is equivalent to larger, more expensive wheels. There are six different control modes: digital and analog versions of Dual Shock and JogCon, plus Negcon with vibration on/off.

The steering isn't very different from a standard wheel. There are only two sensitivity settings, but the higher one should suit most drivers. You get no less than ten action buttons, including two analog ones for acceleration/braking, plus a couple of paddle switches for easy gear changing.

The only slight flaw is that the unit doesn't have a flat base and the two suckers won't adhere it solidly enough to most tables. However, you can fix it more securely with the clamps provided.

Excellent news for racing fans on a budget, the GTO is a real breakthrough in the steering wheel market and represents great value for money.

DOGGY CHEAT!

Enter the following code on the title screen: $\triangle, \square, \circ, \times, \rightarrow, \leftarrow, \uparrow, \downarrow$. If the cheat has worked, you should hear a bark. Now when you start a match, the ref and linesman will have turned into dogs! Don't expect any favours from man's best friends though - you'll still get booked for fouling on the pitch.

INT. TRACK & FIELD

CHANGE SWIMSUITS

On the Game Select screen, highlight the 100m Freestyle, then press $\triangle, \square, \circ, \times, \rightarrow, \leftarrow, \uparrow, \downarrow$. When you start the swimming, the swimsuits will be changed to bikinis!

HIDE GAUGES

1. Go to the title screen.
2. Choose Start.
3. Enter any event and pause the game.
4. Hold L1, L2, R1, R2, $\square, \times, \triangle, \circ$
5. While still holding them, press \triangle or \square repeatedly to get the gauges to move off the screen.

GUEST APPEARANCES

Here's how you can see everything from Space Shuttles to dinosaurs.
Pole Vault - Space Shuttle

1. Clear the qualifying height (4.5 metres).
2. On the second attempt, set the pole to 5.0 metres and clear it.
3. On the next pole setting, a Space Shuttle will fly by.

Shot Put - T-Rex

1. Get a distance that is composed of all the same digits (eg '55.55').
2. A huge T-Rex will visit the stadium.

Javelin - UFO

1. Tap a Run button once and you'll begin jogging towards the foul line.
2. As soon as you see the angle meter appear, press and hold the Angle button (get it above 73 degrees).
3. As soon as the meter rises, begin pressing the Run button rapidly.
4. Make sure you're at a high speed and let go before the foul line.
5. If you did it right, you'll hear some noises and a UFO will fall... with your javelin protruding from it!

Discus - Birds

Get a distance that matches metres and centimetres (eg '23.23').

Triple Jump - Gopher

Match the last three numbers of your distance (eg '19.99').

Long Jump - Mole

Jump a distance where all the numbers are the same; eg 6.66m. A mole will appear from the spot of your jump.

Hammer Throw - Balloons

Throw a distance where the centimetres are the same as the metres; eg 21.21m. A load of coloured balloons will be released from the crowd.

High Jump - Blimp

Qualify in the first attempt. Then adjust the bar by more than 40cm and make sure you clear that attempt too. Then, during the third jump, a blimp will appear on the screen. Adjust the height to the maximum of 2.70m. If you clear that, you can then adjust up to 3.70m.

Now the hidden robo-ninja Smoke is a selectable character in the one- and two-player modes.

SECRET CHEAT MODE

During the opening demo, quickly press \times , ϕ , Δ , R1, R1, R2, R2, R1, R1. You'll hear Shao Kahn say, "You'll never win!" Now press Start. When the stone block appears with the word 'Kombat' in red, press Up to access a secret cheat menu.

'Free Play' gives you infinite credits in the one-player mode.

Turn 'Smoke' on to activate him as a playable character without using the Ultimate Kombat Kode. Turn 'Fatality Time' off to give yourself infinite time to perform fatalities.

Turn 'Level Select' on and you'll be able to choose any stage - including the Hidden Portal - from a menu at the bottom of the screen after you choose your fighter.

With 'One Round Match' on, fights will last just one round.

With 'One Hit Death' on, the first player to strike will automatically win the round.

ALTERNATIVE CHEAT MODE

If you're having trouble accessing the secret cheat mode, here's a simpler version. During the opening demo,

press \times , L1, L2. You'll hear a whooshing sound. Now you can access a shorter version of the cheat menu without the 'One Round Match' or 'One Hit Match' options.

SECRET CODES

This cheat is dead tricky to activate but worth it. After the game has started and you are at the Game Setup menu, press: L1, X, X, L1, X, □, R1, X, □, R1, ○ (which should take you to the Credits screen). Then hold (for a second or two) ⬇ + △ + □ to activate the secret codes.

Now start the game as normal and, as soon as it starts loading, hold L1 + R1 + ⬇ + △ + X + □ + ○ for as long as it takes for the secret code menu to appear. (Top tip: use a CD case to hold down the four fire buttons.)

1. On the secret code screen, L1 and L2 alter player height up/down. The number is in inches (min = 1.5 feet; max = 12 feet). Note: Any height greater than 7'10" cannot slam the ball.

3. Start and Select on controller 1 set the outdoor court on/off. To exit the cheat area and go to the game, press △ + X on controller 1.

RALLY CROSS

SPECIAL PASSWORDS

To be entered as either the Lap/Course Record name or New Season name.

Win Rookie Season - vet_me [= space]

This is equivalent to winning the Rookie season, giving you four extra cars and access to the Alpine track.

Win Veteran Season - im_a_pro
Equivalent to winning the Veteran season, this gives you four more cars and the Gardens and Stadium tracks.

Win All Pro Seasons - weeco
This is equivalent to winning the normal, head-on, and mixed Pro seasons. You can now select the three pick-up trucks.

Heavy Cars - stone
Makes the cars stick to the road more, hardly jumping into the air.

Lighter Cars - feather
Makes the cars lighter so they bounce around more.

Low Gravity - float
Upon bouncing up, the cars float through the air longer. This completely confuses the CPU opponents.

Sharp Turning - spinner
Lets you turn quicker thanks to more sensitive steering. Keep turning to spin right round on the spot.

Fat Tyres - fat_tyres
Increases the width of your tyres, although this doesn't seem to alter their grip.

No Wheels - no_wheels
Removes the wheels, so the cars float around the track!

Just Wheels - wheels
Removes the car body, so just the four wheels remain!

No Collisions - banzai
Lets you drive straight through other cars as if they weren't there.

No Slowdown - novicious
You can now keep accelerating through mud/water etc without slowing down.

Normal Gravity - radbrad
This cheat seems to be pretty useless; unless you've just activated the float cheat. All this does is return gravity to normal.

RESIDENT EVIL

ROCKET LAUNCHER

To start the game with the rocket launcher plus infinite ammo, you must first complete the game in under three hours. Simple. When, or rather, if you achieve this, you'll be able to save the rocket launcher to your inventory and start the game more or less invincible.

CHANGING CLOTHES

It's true, by completing *Resident Evil* with a good ending (whereby you rescue BOTH team members), you will be awarded the Special Key which will be added to your inventory and saved in preparation

for the next game. This key will then allow you to enter the previously locked door in the wardrobe and enter the hidden wardrobe closet. In here you'll be able to access an alternative set of togs for your chosen character. Pointless but fun.

SUN CREST

Go to the Armour room on the second floor and then push the two statues over the air vents in the floor. Now press the button on the ground and the display cabinet at the far end will open, revealing the crest.

WIND CREST

Push the statue off of the balcony on the 2F Dining Room and collect the Blue Gem from the shattered remains below. Take this gem to the Tiger Statue Room on the first floor and insert it into the statue's eye socket. This will cause the statue to pivot, revealing the crest.

STAR CREST

Go to the Large Gallery on the first floor and you'll be confronted by a series of paintings. Visit each painting in sequence starting from the youngest to oldest and press the buttons. The correct sequence is as follows: New-born, Infant, Lively Boy, Young Man, Middle-aged Man and Old Man. Finally, once you've pressed each button, go to the painting at the end and press the final button to obtain the crest.

MOON CREST

This is by far the hardest crest to obtain and it is found in the Attic. When you get there, you'll be confronted by an extremely large snake. You can either take evasive action and run around it to grab the crest from its nesting ground, or alternatively you can blast it to kingdom come and then grab the crest.

DOOM BOOKS & MEDALS

Take the Doom Books to the fountain which you'll come to after the underground passage, then go to your inventory, go to 'Check Item' and rotate each book around so that the pages are facing outwards. Now press X and the book will open, revealing the medals needed to drain the fountain and access the lab.

LOGGING ONTO THE COMPUTER

The log-in name is JOHN. The first password is ADA. The final password is MOLE.

DISKS & TERMINALS

Disk 1 - Inside the hidden room in Library B.

Disk 2 - Behind the huge rock in Crank Passage.

Disk 3 - On the desk at the Stairs in the laboratory.

Terminal 1 - Inside Private Room A.

Terminal 2 - Inside the Mortuary.

Terminal 3 - Inside Power Maze B.

POWERING THE ELEVATOR

To activate the power to the elevator that will take you down to the final battle with Tyrant, you'll need to visit the power panel in the first room of the Power Maze. Simply go to the southwest corner of the room and restore the power to the darkened areas. Go into the last room of the Power Maze and then use the terminal at the east end of the room - the elevator will now be active.

RESIDENT EVIL 2

RANKINGS

After beating each scenario your performance will be rated by a grade from A to F. This is determined by both the time taken and the number of saves used.

For a top ranking, try not to save more than ten times in each scenario. Your ranking is also affected by the use of the special infinite ammo weapons (see 'Cheats') - you won't get an A grade if using one.

CHEATS

Alternate Uniforms:

Start the first scenario on the 'Normal' difficulty setting. Head for the police station, but without picking up any items. If you do this, the two zombies in the park outside the station will vanish, and a new one will appear below the steps outside. Does he look familiar? He should do because the new zombie is none other than Brad Vickers, the STARS pilot who airlifted Chris and Kill to safety at the end of the first game.

Brad has now been transformed into a super-zombie who takes 20 hits to kill - so enter the station to grab some more ammo. Return and kill 'Brad', then search his body to find the Special Key. Take it to the save room next to the Dark Room and use it to open the locker containing alternate uniforms. There's a cowgirl one for Claire, featuring a rapid-firing six-shooter; and two for Leon, one of which enables him to shoot one-handed.

INFINITE AMMO WEAPONS

Each infinite ammo weapon will appear in the next game after the first chest is opened, and is accessed by completing scenarios (on Normal difficulty) within time limits in the following order:

Rocket Launcher: Complete either Claire or Leon's first scenario in under 2.5 hours with an A or B ranking.

Gettin' Gun: Complete either character's mission B in under 2.5 hours, with no saves, no first-aid sprays, and an A or B ranking.

Machine Gun: Complete either character's second scenario in under 3 hours with an A or B ranking.

All Three Weapons: Complete either character's second scenario in under 2.5 hours with an A or B ranking.

Rebecca Chamber Picture
If you search the desk on the left side of the STARS office, you'll be told, "It's trashed, someone must have searched it." However, you can search it repeatedly (about 50 times) until a roll of film is found. Now take this to the Dark Room to see a picture of Rebecca in a basketball uniform.

PLAY AS HUNK & TOFU

1. You need 8 free blocks on your memory card.

2. You need to play the game four times, one for each character's two scenarios, in less than 3 hours with an A or B ranking; ie don't save more than three times (and don't use any first-aid sprays if you want an A ranking). NO special weapons may be used at this point (but you can later).

3. Save each game separately on the memory card - don't overwrite.

Play CLAIRE A as above. This will save as LEON B. Save on Memory position 1 on memory card.

Play LEON A. This will save as CLAIRE B. Save on Memory position 2.

Play LEON B, loading from Memory position 1. This will save as CLAIRE A. Save it on Memory position 3.

Memory position 2. This will save as LEON A. Save the game on Memory position 4.

4. Now, along the way, you will have been awarded the HUNK save file. Save this on Memory position 5.

5. Now you have to play two more scenarios to finally obtain Tofu. For these two scenarios you CAN use any infinite special weapons that you've earned along the way, but you need an A or B ranking as before, with a time of less than 2.5 hours using no first-aid sprays and NO SAVES.

6. For these final two scenarios do it as follows:

Play LEON A, loading it from Memory position 4. This will save as CLAIRE B. Save this game on Memory position 6.

Play CLAIRE B, loading it from Memory position 6 as above. This will save as LEON A. Save this game on Memory position 7.

7. As soon as this is saved, you'll be given the TOFU save file. Save this file on Memory position 8.

EXTRA CARS

You can boost the car quota up to a staggering 12 motors by getting a perfect result in the Galaga loading game, shooting all 40 enemy craft.

You begin the race as normal, but will see the message 'Spinning Point' appear as you reach the first bend. Take your finger off the accelerator and quickly press it again to send your car into a spin.

You can perform 360's, 540's and even 720's with a bit of practice. You'll get marked on technique and there are three spinning points in each track!

MIRROR MODE

You can play the tracks backwards with corners bending the opposite way and the writing reversed by following these simple instructions...

Start the game as normal, drive a little way down the track and turn the

car around. You will see a barrier ahead meant to stop you racing the wrong way. Line your car up and attack it!

If you hit the barrier at 100kph you will go straight through and be able to race the track backwards!

PLAY AS SOUL EDGE
Method 1 - Simply complete the game with every character. Do this and the title screen will change from the plain blue design into a montage of all the characters. Now go to the character select screen and a new skull face representing Soul Edge will have appeared.

Method 2 - We couldn't actually be bothered to try this one, but apparently if you play the game for 20 hours without switching the machine off, Soul Edge will appear in much the same way.

PLAY AS SOPHITIA!
Simply complete the Edge Master Mode with Sophitia, get the eighth weapon and then the next time you return to arcade mode, she'll be there.

PLAY AS SIEGFRIED!

Complete the Edge Master Mode with Siegfried and obtain his eighth weapon. The next time you enter the arcade mode, Siegfried! will appear.

PLAY AS SOPHITIA!

You basically have to complete Edge Master Mode, getting all 80 weapons.

PLAY AS HAN MYONG
First, Soul Edge must be available as a playable character - either by completing the game in Arcade mode with all ten fighters, or by racking up 20 hours playing time.

Once he is, you need to complete Arcade mode with Hwang, then Seung Mina. Han Myong should now be unlocked. (You don't have to bother with alternate endings. You can also use continues and any game settings.)

CHANGING VOICE (JAP VERSION ONLY)
When the main title screen is displayed and you hear a gruff voice say "Soul Edge", it is possible to change the voice by holding L1 and L2 and pushing a direction on the joy pad. Here are some examples:

L1 + L2 + △ - A husky voice will say "Soul Edge" very slowly.
L1 + L2 + ○ (or △) - Seung Mi Na will say "Soul Edge" very quickly.

Volto: To get him to break Soul Edge repeatedly press △, △ whilst he is rubbing the sword on his cheek.

Mitsurugi: When facing Tanegashima the rifle man, step off line by pressing ○ or △, then run forwards and use a □ slash to kill him before he reloads.

Hwang: Press □ when Hwang reaches for Soul Edge and when he returns to Korea he will get a hero's welcome.

FINAL WEAPON
When you complete Edge Master Mode with a character, you won't get the last weapon in their collection - you will have to search the map for it.

When the end text has finished, go back to the map screen and select 'move' from the options and you'll move to where your final weapon is located. If you fail to complete the challenge on this location, the weapon will move again: keep choosing 'move' from the options until you complete a challenge first time and the final

weapon will be yours.

CHANGE THE CAMERA VIEW

To do this, you'll need a Sony Multitap and a second controller. Plug the Multitap into any port on the PlayStation, and then plug the second controller into port two of the Multitap.

Now battle away using the first controller, and then at any time during the fights, press R1 or R2 on the second controller and the camera perspective will be dramatically altered - there is even a first-person view for both characters! With some of the camera angles, you can use the directional pad to rotate the action; and by pressing ○ or X you can even zoom in and out.

RANDOM STAGE SELECT
To fight on random stages during the two-player versus mode, press and hold Select until each bout begins.

COLISEUM STAGE
If you go to the Game Option screen and set the ring size to 20M, you can fight in the secret stage.

SEUNG'S VOICE
Totally pointless, but did you know that when you boot-up the game, one out of seven times the voice that says "Namco" at the start will be Seung Mi Na's instead of the usual blare?

CHANGE SOPHITIA'S SKIRT COLOUR
Select Sophitia in Arcade mode and hold down all three attack buttons while the battle is loading in.

TIPS & CHEATS

to play the game as the respective character's sub-boss. Although some aren't great variations on the original character, it's still good for a laugh!

HEIHACHI MISHIMA

The final boss bloke is slightly harder to obtain. You must complete the game in under five minutes, 30 seconds without continuing.

DEVIL KAZUYA

To access Devil Kazuya in Arcade mode, you must complete the Galaga loading game with a 'Perfect'. To do this, you have to blast all eighth levels of the game without missing a single craft. To assist you, try blasting the first wave in less than 18.5 seconds to receive a duel-craft for double the firepower. You can also practice each wave by pressing Select after it has finished to repeat the stage again – however, by doing this, you won't be able to obtain the Devil.

DUAL GALAGA CRAFT

To obtain two Galaga crafts, press and hold Δ L1 Δ X on the second control pad as you switch on your PlayStation. You won't be able to use this cheat for the Devil.

TEKKEN 2

CHOOSE A POSE

You can determine which of the two victory poses your character performs. After you've won a bout, press and hold \square or \times (right through the replay) to get the first; \circ or Δ to get the second.

MORE POSES

Six of the fighters have a third finishing pose after winning a fight: Law, Paul, Michell, Jack 2, P Jack, Kunimitsu, and Kuma.

Simply hold both kick buttons down, from the moment you win the fight, right through the replay to the end.

FIRST-PERSON PERSPECTIVE

1. First of all you must obtain all the hidden characters in the game.
2. Go to the character-select screen.
3. Hold down the L1 and L2 buttons and select your character in the normal manner.
4. Now your fighter will appear as a wire-frame model.
5. When the fight starts, the view will change to a first-person perspective.

BIG-HEAD MODE

1. Acquire all the hidden characters in the game.
2. Start again but hold down the Select button when you select your fighter.
3. Keep it held down until the round begins.

4. You should now see that your fighter's head has been blown up!

SKY MODE

If, having obtained all of the secret characters, you press Δ + Select when choosing a character, lo and behold you will enable SKY MODE! You must hold down this button combination until the fight actually starts, at which point you will hear a 'punch' sample to confirm that the cheat has been activated. Basically it allows you to fight à la *Mortal Kombat*, with certain uppercut-type moves resulting in your opponent flying high up into the sky. For some reason it works with sweeps as well.

Note: This particular cheat also enables Big Head Mode 1.

BIGGER-HEAD MODE

1. First perform the Big-Head Mode cheat.
2. If you're playing in arcade mode, hold down Select when you reach the continue screen.
3. Your head and arms will now be bigger than ever before!
4. If playing in Vs Mode, go back to the character select screen and hold

Select again whilst choosing a fighter for the same effect.

PURPLE KAZUYA

1. All the secret characters must be accumulated first.
2. Start a new game and highlight Kazuya.
3. Now hold down Start while selecting him.
4. He'll now fight in his third, purple costume.

THOUGHT BUBBLES

1. Play in practice mode.
2. Leave your character alone for a while.

3. You'll now see thought bubble appear above his or her head.

OBTAINING KAZUYA MISHIMA

1. Acquire all the sub-bosses by completing the game using the ten original fighters.

2. Play through using a sub-boss.
3. Once completed, Kazuya will be added.

DEVIL & ANGEL

To obtain this duel character, Complete the game with Kazuya.

SELECT ROGER/ALEX

1. Get to the Devil or Angel...

2. Start a new game with any character and when you reach the third fight, defeat your opponent on the last round with only a particle of energy left.

3. If you do it right you will hear the word 'Great' and the next fight will be against Roger or Alex. Beat them.

THEATRE MODE (JAPANESE VERSION ONLY)

View the Tekken 2 endings at your leisure!

1. Unplug the second controller.
2. You must have all the available characters stored in your memory card.

3. Load up the game. When the words 'Namco Presents' appear, press Δ , \circ , \square , \times , and Select – holding the last four down when you press them. It's tricky as you need to enter this sequence quickly before the words disappear.

4. If unsuccessful, the game will load the normal opening intro. Try again.
5. If successful, you'll be taken to the Tekken 2 Theatre. Here, you can scroll down the list of FMV endings (and openings!) and play any one of them.

Note: After about 10 seconds or so of inaction, this mode will exit automatically, so keep moving around if you plan to stay.

TAUNT OPPONENT (JAP VERSION ONLY)

When you have won a battle against your opponent, press Δ , \circ , \square , \times and your character will jeer in Japanese.

WIN WITHOUT FIGHTING (JAP VERSION ONLY)

Highlight Option mode and hold down R1, then tap \circ , Δ , \times , \square , Δ . Start a one-player game and when you begin the fight, hold R1 + L2 to automatically win the battle.

COSTUME CHOICE

SECRET COSTUMES

Some of the fighters have a third costume, selected by pressing Start to choose them on the character select screen. However, to unlock secret costumes for each character, you have to play them a certain number of times in Arcade mode (without pausing and choosing 'Reset'). The quickest way is to set the timer to 20 seconds, battles to one round, and allow yourself to be defeated, then choose not to continue.

SECRET INTROS

There are two alternative martial arts demonstration intros.

Finish the game with the ten main characters to view an intro with fighters demonstrating martial arts moves in their 2P costumes. Obtain all the secret characters to see an intro with alternative fighters (Panda, Dr B, Heihachi etc) and costumes (Xiaoyu and Jin in school uniform).

TEKKEN BALL

View the endings of the ten main fighters to unlock this special mode, which lets you play a kind of beach volleyball using fighting moves!

THEATRE MODE

To unlock this mode, you have to view the ten main character endings. You can then view all the endings you've acquired so far.

To access the additional Sound and Disc options, you have to view all the endings for the extra fighters, including Tiger. Note that some characters have shared endings, so you only have to complete the game with one: Yoshimitsu/Doctor B, Kuma/Panda, Ogre/True Ogre.

The 'Sound' option allows you listen to all the music, while 'Disc' lets you insert the Tekken 1 or 2 disc to view the endings from the earlier games!

SCHOOL BACKGROUND

You must first acquire either Jin or Xiaoyu's school uniform by playing them 50 times in Arcade mode. Then select a two-player Vs game and choose the uniform by selecting and confirming Jin/Xiaoyu with Δ , BEFORE your opponent selects his fighter. They'll be fighting on a school yard background.

CHOOSE WIN POSE

After winning any bout, note which button you used for the final move. Then press and hold it to activate a particular winning stance. There are four poses for each fighter – one for each button (Δ , \square , \circ , \times).

SAVE MONEY

One to two hours before the end of
 the month, transfer all of your
 scientists and engineers to another
 base. Since they are in transit they
 don't get paid.

EASY MONEY

This is an easy way to get millions of
 dollars. First go and investigate a
 crash site, then when you finish it,
 research Alien Alloys. Once it's
 researched, manufacture a lot and
 sell it all for a nice profit - it costs
 \$3,000 to make, but sells for
 \$6,400. Also, sell all but one alien
 corpse. After you research it, sell it
 and get \$20,000 for each one.
